Questions Presented for Review

Does the United States military, with or without abused citizens of our nation and other nations, have the power to prosecute fictitious judges on the floor of the United States Senate, (with Senate approval and for lack of an identifiable untainted forum), who commissioned many of the officers, when the judges are of undefined scope of power and influence and knowledge of their next planned appearance in any United States court is unavailable to the officers? The judges were created by United States politicians engaged in international acts against the sovereign United States. These politicians removed, by proxy through the fictions, evidence of treason against the United States of America, and military claims of military families for reporting waste, fraud and abuse, inclusive of treason for which they drew reprisals. They also closed access to political process in the United States to obstruct the reporting of treason by the military officers. Does this power to prosecute extend to host nation forums where the actions arose? To international forums where standing is gained?

1) Must this Court present evidence to petitioner and to the Congress for its own impeachment for altering records, suppressing election documents to enjoin the election until the scope of the power that

creates judges can be defined by the Congress and the other candidates, until the American public alerted to the creation of judges and alerted to the blockade of communications with the Leon County Circuit Court, and the Florida Supreme Court, so as to favor Bush v. Gore over Reiman, Clinton, United States of America v. Bush which was hidden from some of the Justices?

Internal witnesses can be produced to the Congress. This matter is relevant to fictitious Judge Ronald W. Jock and the refusal of the Ninth Circuit to enjoin the California Primary for interference with communications among the candidates as to the creation of Judges and the international drug running of Bush, Clinton, and Noriega as reported by the now murdered witness in Guatemala. Those who altered documents and who suppressed them here can only be distinguished by the Congress in impeachment of Judge Ronald W. Jock to be separate from the power that forced co-defendant Edward J. Garcia to appear as "judge" for the Bush defendants and to remove the declaration of the murdered witness to Bush, Clinton, Noriega international drug running from the 10-10-97 file with the military claims, with the telegram of murder of one associate for investigating the attempt upon William Jefferson Clinton's life by Republicans in the summer of 1992 in San Francisco.. The declaration claims the international drug running

of Bush, Clinton, Noriega and the same person subject of the interrogatories Colonel Reiman sent up thechain of command and to the Members of the Congress. They must read the deposition questions of the Bushes and the Iowa documents in the light of the murder of the witness, United States military helicopter pilot Dois Gene Tatum.

2) Must this Court mandate production of stolen federal court records subject of this appeal and evidence related thereto of treason by the Ninth Circuit Court of Appeals to the Court and to the Congress for impeachment of those who stole the records and who made co-defendants to appear as "judge" when the thefts are extra-judicial acts and appointment of a served- with- summons- and - complaint co-defendant as judge is extra-judicial?

3) Fictitious judges Ronald W. Jock and the co-defendant of the Bush defendants, served with a summons and complaint before being placed on the case for stealing $2 billion in military family claims for reprisals for reporting waste, fraud and abuse, consolidate the cases 00-15903 and 00-16522 as a matter of law and due process to determine the acts of the fictions in each case to be or not to be exclusive acts without the function of the other fiction or those who created either. Agree?

4) This Court's acceptance of the orders of a fictitious Judge Ronald

W. Jock that denied a criminal investigation into international drug running of Bush, Clinton, Noriega as expressed in removed state court filings cannot be distinguished from the suppression of the documents to enjoin the election until the creation of Judges by the Bushes could be examined by the Congress and the undue influence upon the Courts defined by the Congress which has a duty to impeach the fictitious judges, those who created them and those who altered federal records to protect the fictions and those who created them. Does this Court agree?

5) Does the petitioner have First Amendment rights to know who he petitions when he petitions the government and to have all the judges defined including those who altered the documents in this Court that now are cover-up evidence as to treason, and murder of the key witness of Bush, Clinton, Noriega international drug running?

6) Petitioner has standing because he entered the race for president with a celebrity and made presidential issues those of theft of military claims from a federal court, abuse of our own citizens and abuse of citizens of other nations, murder of an associate during earlier political efforts in a fiery death that linked to international drug running, the sub-culture of lurid abuse of women and children by politicians, their disappearance and/or murder, an attempt upon

the life of William Jefferson Clinton in 1992 in San Francisco reportedly with the involvement of Republicans and George Bush. Are these crimes to be vindicated?

7) A telegram that expressed the physical harassment, taking of the life of the associate, and the attempt upon Clinton was removed from the Court. Excerpts were not delivered to the Congress as requested of the F.B.I. The 10-10-97 file contains the military claims, the declarations of petitioner's excellence as a military officer and as a physician. (Remains Board Certified in Anesthesiology, Family Practice, is a flight surgeon, graduate of the Air War College, and has not been sued in entire career of practicing medicine. License revoked with altered records, while relocated in Nevada against rules, without notice, jurisdiction, nor hearing on the tolled probation for having had left the state. No judge could be approached because of the increasing creation of judges by the defendants, increased theft of court documents, interference with fund raising, licensing, direct communication with doctors, dishonoring of subpoenas, and murder of witnesses and members of the class seeking certification. Falsified evidence was presented to this Court and the same issues were made campaign issues for president to seek public awareness and defense of witnesses before murdered.) Are these impeachable offenses?

8) This Court reviews records to be restored, offers of proof to be honored as to the creation of the judges, falsification of orders, and the body of the key witnesses, Dois Gene Tatum and the abused women and children, with evidence has to be returned to the Congress with evidence from this Court as to who altered the records and suppressed records on December 11, 2000 to prevent exposure of the Bushes and the favoring of Bush v. Gore over the filed documents to enjoin Electors so the scope of the fictions could be defined with evidence relevant to the public presented in the election. Other questions of equal protection, full faith and credit under the state and national privileges and immunities clauses as to the fundamental rights to run for the presidency, fundamental because it includes the right to vote for one's self or others in defense of our nation and international law and order, due process substantive and procedural, and the fundamental right to run for public office that inheres in the Liberty Clause, are incorporated that were directed to Senator Daschle and interrupted by military controlled satellites. They are presented as evidence here as to the very serious nature of interference with communications with the National Security Agency and with a Senator of the very need to impeach this Court. Those who interfered have to be determined, by the Congress who redefines the judiciary and impeaches the

judiciary as an entire body and not just as to those under the influence of the Bush defendants, to be in or outside of the power that created the judges, to be impeached.

These acts of treason disfranchised our nation on December 11, 2000 by blocking mail to the Congress and through Members such as Gary Condit, see Appendix I, notice of arrests and enjoinment of the Electors as a matter of law until the scope of the judiciary under the undue influence of the Bush defendants could be determined by the Congress.

9) Can Petitioners prosecute, with JAG officers, as a matter of law in defense of our nation under the bizarre circumstances of creation of judges and blurring of the identity of all courts in our nation, Echelon and the Bush defendants who created judges in the United States Senate as a matter of law because no court in the United States is shown not to be within the scope of the Bush "power"? Highest law enforcement agents and prosecutors have been blocked from prosecuting the Bush defendants.

10) Do the Courts that were arrested and required to submit to the authority of the Congress have to so submit, as a matter of law, under the virtually eliminated Judicial Branch because of creation of judges of undefined scope, power, time of appearance, and have to provide the Congress with evidence of the coup against the United

States as a matter of law and to avoid charges of treason once the Judicial Branch is restored?

Requests that those arrested submit to the authority of the Congress for impeachment were ignored by the same arrogance that created the judges and caused certain justices or clerks in combination in this Court to hide the documents to enjoin the Electors until mid January while the notice to the Congress of the arrests and the requirement that those arrested submit to the Congress were blocked. See NSA in Appendix Q.

11) Because no "finality" can attach to prior decisions with the scope of the fictitious judges undefined who may have signed the decisions and orders as did Judge Jock, must prior counsel be ordered back on the case for lack of finality and fraud upon themselves, the courts, and our nation? Counsel for the class was to be Melvin Belli.

12) Must the evidence on Jock, the orders received by this Court with the falsified evidence from the California Supreme Court, be given to each MEMBER OF THE CONGRESS , to Colonel Reiman, to Robert Redford who may or may not have received messages from the missing Reiman campaign manager, or the high-technology- tortured- Florida women who were to approach him, the campaign manager and others for assistance?

This power to deliver evidence of treason to the Congress arises from the Liberty Clause fundamental right of the Congress, of all of our people, our nation, all the candidates, and all nations with evidence of the existence of the New World Order/ Fourth Reich, and Colonel Reiman, Robert Redford and all who would join them with the evidence on Jock, the stolen file, and the murdered Tatum, abused women and children, to run for the office of President of the United States with evidence of treason and crimes against humanity defend her and her people in the community of law abiding nations and in conformance with the total body of international law.

13) A final question is whether this Court and the Congress must present evidence of a) who created Judge Ronald W. Jock and b) who ordered the appointment of a co-defendant of George W. Bush a "judge" c) who murdered Tatum who declares that Noriega, Bush and Clinton were involved in international drug running to the International Court of Justice to determine the scope of Hussein, Noriega, Milosevic connections with "Jock," "Irwin Peach," and other black operations figures; to the Civil Rights Court in Strasbourg to vindicate the rights of Colonel Reiman and the class to defend the citizens of the host nation as required by law, the

status of forces agreements with the U.K. that state that our Constitutional rights shall be preserved inclusive of those cited above, and specifically the lives of our own F-111 pilots falsely accused of pilot error, the victims of the international drug running in the European theater, the abused women and children whose duty it was for Reiman and all United States of America military to defend; the raped men from France, Bosnia, Haiti, and Romania who were "sheep dipped" into black operations, forcibly trained as assassins at the peril of their mother's lives, as defined in the case pleadings and on report?

Certainly JAG officers tasked by the Congress, whose Senate commissions many, to obtain the depositions of witnesses, members of the class, and to return the dead bodies of our own will facilitate the morale, the esprit de corps, and the mission accomplishment to the enduring defense of our nation and the subjugation of the New World Order cult/ Fourth Reich to a nation of the people, by the people and for the people. The New World Order exists pursuant to testimony to the Senate in 1996. Political non-justiciable questions do not apply to the New World Order/ Fourth Reich as concerns the Supreme Court of the United States that has a duty to uphold and to defend the Constitution and the United States of America from the New World Order/ Fourth Reich even if Justices

of the Court have been seen at New World Order/ Fourth Reich functions. Judges and justices have restrained themselves from entering the political arena; however, the fact pattern of these cases that are consolidated show the opposite to be untrue: the politicians have not kept out of the courts nor out of the court houses.

OPINIONS BELOW

1. Motion For Rehearing denied, Earlier IN BANK demand merely recommended by two justices, voted by one not to be honored. All documents, notice of arrest for fictitious judges and stolen file ignored.

(Due process right to in bank determination to eliminate fictitious judges)

2. Appeal: affirmed Eastern District as trivial

3. Eastern District Sacramento: trivial (to create judges, steal files, and block communications to other candidates that Noriega, Bush, Clinton were running drugs and luridly abusing women and children. Declaring witness murdered. Primary not enjoined. Fictitious judges not identified, Bush defendants permitted to name a co-defendant as judge. This is the co-defendant's decision: trivial)

JURISDICTION

1)No prior Circuit Court of Appeals has permitted a district court to allow a political party to name a co-defendant as judge nor to create a judge, nor to have only one member of a panel vote to reject In Bank determination of the crime. The decisions are in conflict with all others on the issues of election fraud.

2)The cases 00-15903 and 00-16522 are consolidated as a matter of law and 00-16522 was consolidated with 00-15903 at the lowest

levels of the district court and each incorporated into the other because the acts of the fictitious judges could not be separated from the theft of military claims, alteration of records, creation of the judges, and in 00-16522 these were subject of the election issues and the attempt to enjoin the California Primary election because of blockade of communications with Senator Mc Cain and the other candidates. The court made political determinations by creating the judges, condoning them, and then blocking an In Bank DEMAND THAT THE NOTICE OF ARREST AND THE VERY SERIOUS CRIMES OF CREATING JUDGES BE NOTED BY THE JUSTICES AS A GROUP, where the arrest of the fictions and the court could result in the In Bank justices setting the matter straight and following the law. Motion for reconsideration was denied April 20, 2001. The date was changed and written over what cannot be read in hand writing. Petitioner has no clue who did this. The Eastern District Order was February 16, 2001. Not all records were directed to the justices according to a clerk witness. The 10-10-97 file stolen from 92-0066-EJG is not in the court house, it is in the Attorney General of California's Office who was also arrested and requested to submit to the authority of the F.B.I. and Congress. It is subject of the cases and the political issues raised in petitioner's Apip squeak@ bid for the presidency in the Iowa Caucus with a

celebrity. (Israeli, Palestinian, French satellite peace options).

3) THIS ERROR BREAKS EVERY TRADITION OF SOCIETY TO KNOW WHO THE JUDGES ARE AND TO BE ABLE TO ESCAPE THE DECISIONS MADE BY THOSE WHO CONDONE THE CREATION OF JUDGES AND ARE THEREFORE PART OF THE VERY POWER THAT CREATED THEM. THIS POWER EXTENDED TO SOMEONE IN THIS COURT THAT HID DOCUMENTS ON THE SAME ISSUES OF ELECTION FRAUD IN THE PRESIDENTIAL RACE. WE OWE IT TO ONE ANOTHER TO LET CONGRESS IMPEACH. THIS COURT HAS JURISDICTION BOTH AS TO CERTIORARI AND DIRECT APPEAL AS A MATTER OF LAW THAT IS SO FUNDAMENTAL TO OUR TRADITIONS OF ANGLO-AMERICAN ORDERED REGIMES OF LIBERTY. NO SOCIETY COULD BE MORE DAMAGED THAN NOT TO ANNOUNCE WHEN JUDGES WILL JUST BE CREATED AND CRIMES OF POLITICIANS WILL JUST BE BURIED BY THEM AND FOR THEM IN A NATION OF , BY, AND FOR THE PEOPLE.

STATEMENT OF CASE

Background facts:

1) Colonel Reiman was wrongfully discharged from the United States Air Force with a delusional disability, related to his mainstream belief in Jesus as soverign Lord. Records that would restore his military career, state medical license have been continuously suppressed, are not precluded by res judicata, nor issue preclusion because that which has been suppressed has never been reviewed and was not necessary to the decision. These issues are fresh and vital to federally protected rights of the petitioners. (4th Amendment Right against unreasonable seizure of property.) They were brought to the political arena in the context of different faiths and the need to establish dialogues among different people of different faith and to preserve our courts and our governments for the innovations that can be advanced to increase understanding of one another. (Thefts and suppression of the property of all nations and that gifted to them violate the Declaration of Human Rights, DHR, and the International Covenant on Civil and Political Rights, ICCPR. The doctrines of state and sovereign immunity are not a bar to the retrieval of the gifts at the hands of non-sovereign created fictions placed in power by the respondents. Petitioners have the right to the assistance of the international community and their fora

to retrieve the gifts and to expose the international drug running, weapon placement, assassinations, and instigation of theaters of operations and wars for profit of the respondents and those who fund Echelon) The case under review arises from the theft of documents and the murder of the key witness. The creation of judges is novel in American law and here two were created for political reasons to suppress evidence of international drug running. (The First Amendment right to know who the "government" is we petition is thus violated). These two are logically all the judges and justices because they appeared at the request of the powerful to defeat the opposing candidates of this last presidential election.

(These statements are made for the religious reader to recognize as mainstream views, not delusions, held by many military officers and enlisted people and can be ignored by those upon whose nerves any religious statements grate. They are quite separate from the independently protected federal rights. Ephesians 6 covers exposing black operations to protect our families. The military is a family. Some are saved. Some are not. There is absolutely no religious foundation for attacking Jews, Muslims or others for their religious beliefs. Christians have the right to defend the lives of Jews, Muslims and others. The remnant is as viable today as it was in Isaiah 37.

God called David to both might and justice. So too are all nations called, all militaries, all families, and all people.

Courts are not excepted and each federal servant has taken an oath to defend the Constitution and has undertaken sacred honor in the defense of unalienable rights until the Author of history visits upon us Matthew 24. (This undertaking, though religious, meets the DHR, ICCPR.)

Beyond salvation, we are to work. The first mission is to love one another as we love ourselves and to love God above all else.

In Israel, in Palestine, in the United States there are people who love God and who see him differently or not at all. Read all the battles in the Bible this weekend, if you have a chance and doubt the truth, and reflect upon our duty to the families of our own military and to the call to justice and to might on all battlefields where some of our greatest warriors have been the greatest warriors of God as well in the carrying of the courage to carry one another from behind the battle lines to the courts of conscionable people and well managed governments, or to challenge and to command change as the forces joined, as they did in the Bible, to meet the calls to might and to justice.)

2)All courts at each level involved were arrested for the ongoing felonies of creating judges (see below), falsifying records, covering

up treason, obstructing justice, and were requested to submit to the authority of the Congress. Both Bush defendants were arrested and requested to submit to the authority of Congress. Honorable persons arrested would simply stand aside and let the Congress, the JAGS, excuse the fictions from our midst and gather together the evidence of the murder, rape, high voltage shocking, stun gunning, pedophile rape, prostitution to politicians in all lands of our women, our children, those of other nations, and gather the victims to our sides, to our families, striking fatal blows at those enemies who seek our lives, our liberty, our nation's freedom which we defend from the eclectic positions of individual faith but in common resolve to preserve freedom before God's appointed time. The Eight Amendment is violated by such torture with no courts having determined the punishment nor examined the technologies. Petitioners have been micro waved in their homes and satellites under Echelon were needed to accomplish this.

3) The judges and justices who did not know who created the fictitious judges could not state that they were not included in the power that creates them.

4) It is insufficient as a matter of law that the courts know who they are, but the judges, justices who did not alter nor remove records and engage in false certification, declarations, are not permitted to

see the evidence of these extra-judicial acts that here constitute treason and the aiding and abetting of double agents in the White House situation room that is confirmed by statements of President Clinton made to Monica Lewinsky. Petitioners have a federally protected right under the First Amendment to know whom it is they petition when they petition the "Government".

5) The entire Court was arrested and served a notice of arrest for the false certifications that are now cover-up of the murder of the key witness in the case (Tatum) against the powerful political defendants. It is thus a novel issue of law and one of supreme importance to national security that a military officer, whose removal is void ab initio for fraud and violation of federally protected rights and the duty to defend our nation and allies, that inheres in the Liberty Clause as a fundamental right, be denied the equal protection of the laws as to the class of military officers who are removed from their careers and duty to defend our nation from all foes foreign and domestic without false certification of documents, attack upon their religious beliefs in the face of documented excellence as a physician and as a military officer(promoted from Major to Lieutenant Colonel with the same religious beliefs), suppression of documents, murder of witnesses, and creation of fictitious judges while those exterior to the power that

creates the judges do take exception with the creation of the judges apart from merit and apart from the precise prescription of law.(14th Amendment violated)

6) Equal protection is also denied the petitioner to be removed for mere religious belief well within the scope of traditional beliefs that if all were

born again, we would have peace and only the Lord knows who is written in the Book of the Lamb.

7) Colonel Reiman needs the suppressed federal records, the Mc Knight memo, the identification of those who altered civilian medical records, the identification of those who inserted the F.B.I. into the medical license decision, and the entire stolen 10-10-97 file with the excerpts of these consolidated cases on appeal to regain his medical license and his military career with payment of the military claims and back pay with damages. Pursuant to Due Process, all prior state and federal cases with "Decisions" are not barred by res judicata until the scope of the fictitious judges is shown by the Congress after impeachment of the fictions and those who created them to exclude those who conducted the "cases" from which, in every instance court exhibits were removed that exposed rogue government involvement in drug running and other black operations functions. Petitioner's own commander and the

Atreating" psychiatrist, for the ruse of mental illness, for his religious beliefs, saw through the ruse and recommended that he be retained. The falsified records in the military and the Mc Knight confession are grounds for re-in-statement with identification of the scope of the fictitious judges to avoid appealing to authorities within the scope of the power that is creating the judges. Impeached judges' commanded "decisions" can't stand because they did not write them and they are void ab initio.

8) An F.B.I. "Secret" maintained on the Reimans was inserted into the medical license decision when it was not in evidence and may have been inserted by the same parties who murdered, or had murdered the key witness to international political involvement in drug running by Reiman's political adversaries, and who created fictitious judges and falsified evidence sent to this court wherein documents were altered on 11 December 2000 that were to Enjoin the Electors until the scope of the undue influence on the judiciary by the Bush defendants was defined by the Congress. Due Process, state and federal is thereby violated. The "Secret" the Reimans were working to improve the plight of persons who were abused by international drug running and the sub-culture.

9) Notice of service to the Congress was relayed to each member through Congressman Gary Condit and others.

10) These were not delivered and proof of alterations of records in this court to favor Bush v. Gore over Reiman, Clinton and the USA v.Bush are made to this Court once the Congress determines who altered records in this Court, who tabled the action to enjoin the Electors until the scope of Bush influence on the judiciary could be defined. This non reviewed action is relevant to the creation of the fictitious judges and must be reviewed by the Congress to dispose of the issue of treason.

11) In the interim the offer of proof is made to the Congress to support their mandatory impeachment of the power that creates judges of undefined scope and restructures rules for In Bank determination unilaterally and contrary to established and vital Due Process.

12) A psychiatrist was coerced to state that Colonel Reiman was compromised and admitted her guilt to an Air Force Board that Aboarded her out@ of the military with a fifty percent disability as a violent psychotic. Judge Jock and those who created him thus denied Due Process.

13) Civilian psychiatrists cleared Colonel Reiman and the Mc Knight memo was referenced as attached to a California Medical Board accusation against his license. It was not attached and the defendants have refused to return the memo and to identify the

creators of a fictitious Judge Ronald W. Jock Due Process is denied and continues to be denied in violation of the DHR, ICCPR.

14) Colonel Reiman took exception with government waste, fraud, and abuse and offered interrogatories to the United States Congress after going up the chain of command querying the involvement of the defendants and persons listed in the recently murdered helicopter pilot Dois Gene Tatum's declaration that Noriega, Clinton, and Bush were involved in international drug running.

15) Ronald W. Jock submitted orders that denied a criminal investigation into the theft of files from a California State Court and Chief Justice Ronald W. George submitted, through his clerk declarations that no alterations were made in the Supreme Court of California, whereat, certified copies prove this to be false. Due Process denied.

16) Thus the defendants have submitted falsified evidence to this court through a fictitious judge whose scope of power that has created him is not defined, can only be defined by the Congress, and may include the very judges and justices petitioned with a request for a stay until the Congress impeaches the fictions and those who created them as a matter of law.

17) The body of the helicopter pilot and the evidence as to who ordered him killed, with an accounting for the missing and dead

members of the class seeking certification, are demanded of the Congress as a matter of law under the enumerated powers of impeachment, foreign affairs, election crimes, and, as an open question after Chada, the power to withdraw power delegated to a federal agency by the Congress.

18) Co-defendants of Edward J. Garcia, Ex-President George Bush and George W. Bush, were named as necessary parties and all were served with a summons and complaint. After Garcia was served, he was named as "judge". He served on the case for extrinsic fraud to restore the federal record with a removed file containing claims for military abused and murdered personnel that now includes Tatum. Garcia was permitted to illegally cover the theft of the file, the report of the theft, and the showing of proof that the file was stolen, that the plaintiffs were violently harassed to chill their appearance in court. Right to counsel denied thereby.

19) These acts are extra-judicial and the file contained gifts to other nations of innovations in commerce and foreign affairs directed to children of other nations and to counter, through education, the international drug running, weapon placement from laundered funds, technology transferences, and illegal use of technology against those who take exception with the New World Order as described to the Senate in 1996 in sworn testimony. The means by

which these plans were to be implemented with celebrity, international corporate and government involvement was removed with the converted file. Fundamental right to access to political process was thereby denied.

20) The file also contained declarations of Colonel Reiman's excellence as a military officer and as a physician which are needed to restore both the state medical license and the military career. The property of foreign states was thus expropriated in violation of international law by means of alterations of court records, false affidavits and murder of our key witness. Satellites were used in violation of the Kyoto Treaty.

21) The case is consolidated as a matter of Due Process with Ninth Circuit Case 00-16522 because the fictitious judges are the same defendants and the issues are the same except that they also became the foundation for bid for the presidency as platform issues for Colonel Reiman and a celebrity that were entered into Iowa Caucus documents that were channeled through nations with evidence of international drug running, abuse of our own military, United States women, children, and citizens of foreign nations.

22) Judge Park stayed state court litigation for federal litigation, that requires, as a matter of law that all causes related to the core of operative fact be joined or lost. The stolen 10-10-97 file of 92-CV-

0066 EJG, is the same EJG, who was served with the summons and complaint in the case here before the Court to restore the record, the military claims, and the gifts to the nations with the means to implement them for the benefit of our own women, children, and abused military.

23) Judge Park, presiding Sacramento Superior Court, has to restore the state record as well. As this case approaches the Supreme Court and the Senate, he is resisting producing the removed files and assisting in identifying the fictitious judge's scope of power. Now the case of Robert Sullivan prior counsel before the Medical Board, who may still be counsel on order of this Court, and The California Attorney General have not only tolerated the creation of Judge Ronald W. Jock (to cover Chief Justice Ronald W. George, see altered Supreme Court of California documents and the Removal as a matter of Due Process to the Congress, for redefinition of the Judiciary, federal, and trial before the Congress for treason until the courts can be redefined), they have conspired to remove the entire case against Sullivan, 99 AS 01093 from the court house by reassigning other parties to the same number and pretending that the case does not exist likely because of Bush as Does who cannot be identified as such, even though the exhibits now shed light on them with the murder of Tatum and the creation of the federal judge.

The case was for permitting the F.B.I. to enter Secrets into the medical license decision, not in evidence, to literally write the decision for the political adversaries, defendants Bush. Due Process is denied by the Courts limiting defendants by despoiling evidence that links to "Doe" defendants.

24) Judge Park must return the film shared with General Powell for the Congress to review it and the prototype gift to all nations in Japanese. (General Mac Arthur taught our culture to them, and we can follow his lead as we attempt to gain control of the satellite based launch platforms for directed energy weapons and lasers powerful enough to destroy our own Pentagon or White House.)

25) It is thus timely for the Congress to consider the Powell /Quatros, innovations that would minimize this risk, creation of the judges, the alteration of election documents in this Court, the theft of the Iowa documents, the block of notice of service to the Congress and to each Member as to steering the election to Bush by altering and suppressing the knowledge of creation of judges and blockade of Senator McCain and the Congress from receiving the evidence of black operations murder (Tatum and others), sexual abuse of women and children (see the Excerpts), and imperilment of Israel by blocking mail from Condit to Senator Lieberman, and generally promoting Grace Haskell's Forcing God's Hand to enact a Biblical

end times scenario in which Israel will be punished by an emerging New World Order/ Fourth Reich, identified to the Senate in 1996 and locked into committee to keep the entire Senate in the dark.

26) International crimes of drug running, laundering funds for weapon purchases, placement of assassins, instigating theaters of operation for profit, murdering our own military for their knowledge of black operations crimes internationally covers the broad spectrum of the pastfifty years that has culminated in the murder of Tatum. The sacrifice of our own men for Viet Nam drug running, our Korean men for placement of weapons and limited armistices to keep the region Ahot@ for more sales, the deliberate arming of Iraq, Serbs through black operations to be able to place the weapons purchased with drug money is relevant to the law suit and to the political campaign for president. Damages of $21M are due each family and member of the class seeking certification reprisals and injuries caused by illegal conflicts that were established for profit and not for national security as proved by the spectrum of "Jock" activities.

27) The first day of any upcoming month can be assigned as a new election for president on the grounds of fraud, alteration of records in this court at the hands of Judge Ronald W. Jock and the created Bush "judge" to keep the issues of the murder of Tatum and the abuse of women and children incorporated into the law suit from

surfacing as campaign issues for the edification of the Republican Delegates, the other presidential candidates, the celebrity, public, our allies, the law abiding international community and those nations who were victimized by black operations subsumed under "Jock". (Creation of other fictitious names, such as Irwin W. Peach for George Bush are relevant to the Congress and this Court must support its own impeachment of those who suppressed the records on December 11 to favor Bush v. Gore on December 12.)

28) The effort to kill President Clinton by the same forces that created Jock are also relevant to the election. Congressman Condit was to advise Congressman Meehan of that effort and the effort to kill Colonel Reiman, his body guard, and the removal of a would be assassin from a California hospital by helicopter with expungement of medical and police records. Hard evidence is to be reviewed, as a matter of law and duty under the First Amendment Right to petition the government for redress, here the Congress to impeach the fictions, those who created them, to return the body of Tatum with evidence of who created him to the Congress, to restore the court records, accountable judges, to pay the military claims and to protect the military family in the United States so it can get on with the job of defending this nation without the alterations false identification of targets for high technology abuse. The

Reimans are walking evidence and need medical attention with the assistance of witness from Los Alamos of human targeting with lasers. M.I.T., N.I.H. are needed with experts in Sweden, Israel, and the United Kingdom.

29) Our own National Security Agency, most members of the Senate and House of Representatives were blocked from receiving satellite controlled communications to them, to prospective counsel, past counsel who are likely counsel now because of the non-finality of all cases written by non-judges, fictitious judges, the F.B.I. and others to be determined. No state, no federal agency, no nation could give full faith and credit to the taking of Colonel Reiman's medical license and military career when the actual revocation was taken with altered medical records, subpoenas were ignored that would determine who altered them, Mc Knight's memo was never produced, the fictitious judges not defined as to scope of power and the arrests were impugned and no one submitted to the authority of the Congress to establish as required by law a judiciary. Military and federal agency personnel have been "trivialized," "marginalized," and then murdered and Tatum is the starting point to restore our nation and will be covered with the media or they will be un-licensed by the Congress. Thus the remedy raises issues for restoration of the record and the courts of the withdrawal from

run away agencies (that now write medical license decisions, quash investigations, destroy evidence and look the other way as to treason and murder) of the Congressionally delegated power to do so under Chada. It is an open question of law whether the delegated power to agencies can be withdrawn. If treason is committed and they cannot police themselves then the power must be withdrawn under the DHR, ICCPR, and Due Process. This Court is demanded to send the evidence that would impeach the court with the appearance of three members of the court at black operations functions, attended by those who created Judge Jock and other fictions, to the Congress and mandate that they withdraw the power of the F.B.I. to write medical decisions and to suppress federal records while refusing to investigate murder and attempted murder by classical and high technology means.

30) Israel, France and Palestine were requested to assist in establishing communication nets that would bridge these defects. These messages to Israel were truncated. They are vital for self and national preservation.

31) Cruel and unusual punishment questions arise under the Eight Amendment with no parties, no courts, and with media blockade, no public to turn to for assistance. Attacks upon human para-rhinal, diencephalon and hippocampal brain as to President Reagan and

others must be explored. We will document in-common facial lesions among the targets.

32) Original actions can be filed by each nation to whom the gifts were donated for the restoration of the stolen 10-10-97 file with the master "defense" plan and the educational, cultural, intelligence, and commercial innovations in defense of our nation. They have the right under International law and existing treaties (DHR, ICCPR, Kyoto) to the knowledge of the abuse of satellite communication laws, our election laws, and the literal invasion of our courts whenever the New World Order/ Fourth Reich cares to do so.

33) A material triable issue of fact remains as to whether Judge Jock was created by the New World Order Fourth Reich and whether our presidency has been reduced to a "Chief Executive Officer" status for the New World Order/Fourth Reich. The evidence as a novel question of law must be provided for purposes of the JAG officers examinations of military victims, agency victims, and for the upcoming presidential election on the seventh day of any month after the impeachment of this court for suppressing records on December 11, 2000 to favor Bush v. Gore and to keep yet to be determined Justices of this Court in the dark as to who was suppressing what and who Jock really is.

The Court's remedy lies in the restoration of the federal record, at

minimum in its supervisory capacity; lies in turning over all fictitious orders in its custody to the Congress with the suppressed documents meant for the Congress that were also suppressed by this Court to favor Bush v. Gore over Reiman, Clinton, United States of America v Bush et al. Bush has Judge Jock and an appointed co-defendant Edward J. Garcia, with those who changed documents in this court and suppressed them behind him. Petitioners have the United States of America, all of its criminal laws, and its Congress behind them on the facts of the creation of the fictitious judges, murder of witnesses to high political drug running and abuse of women and children, the disfranchisement of our nation on December 11, 2000, and the presumed total distribution of power that creates the judges over the total federal and state judiciary as needed. See the attached declaration of the murdered Tatum and the Coup d'etat documents that permitted the "lunatic fringe" to come to power.

CONSTITUTION AND INTERNATIONAL MANDATES

Thus the question arises as to the duty pursuant to the Constitution, Amendments 1, 4, 5, 8, 14, equal protection, Liberty Clause, which this Court has sworn to uphold, DHR, ICCPR, Kyoto Treaties to hand over the evidence the Court has to the Congress on the fictitious judges, and to order the arrested lower Courts, and the defendants

to submit to the authority of the Congress to redefine the judicial branch by impeaching the fictitious judges, those who created them, and to withdraw agency power in toto or as to that exercised far in excess of that delegated to them by the enabling documents of the National Security Agency, the Central Intelligence Agency, the Federal Bureau of Investigations. International evidence of crimes against our nation

AND THEIR PROPERTY are in the removed documents from the 10-10-97 file. DOCTRINES OF STATE/SOVEREIGN IMMUNITY NO BAR TO RETRIEVAL OF THIS PROPERTY THAT WILL ASSURE THE RESPECT OF THE KYOTO TREATY, GOD WILLING

(Please read the blocked satellite communication to the NSA and to Senator Daschle at this point to see argument for Equal Protection and the Constitution Amendments. I cut my hand on a skill saw and am punching with my left and cannot get the Daschle letter in, plus it is evidence as to the coup d'etat against our nation.)

The question of political non-justiciability arises but is set to rest by the alteration of documents and suppression of documents in this Court that are extra-judicial, and political acts taken by the Court to be examined by the Congress to impeach the Court, in part, and not in conformance with federal law, internal rules of the

Court. As to the appellate court demands for in bank determinations to alert all justices to stolen files, arrests of the court requiring their submission to the authority of the Congress, and false certifications of records by non judges, these rules have not been followed and our fundamental laws have been violated as to treason. All constitute treason, cover up of treason and harboring of double agents in the White House to reach the needs of international black operations agenda. Due Process was denied. International intervention in the Hague, Strasbourg imperative.

NO DOUBLE AGENTS IN WHITE HOUSE UNDER DHR

International due process under the DHR, ICCPR demands no double agents in the White House situation room to place all nations on par with fair treatment in all branches of our government and in particular in our courts to recover their expropriated property and to secure their sovereignty and security in the family of nations. See page 132 President to Monica in her book relevant to what has happened to other abused women and children.

CAUSATION OF BODILY INJURY

But for the creation of the judges, the theft of the military claims, the alterations of the records in this Court, the interference with the communications to the media, to the other political candidates, the petitioners would not have suffered the high technology abuse

to their bodies, the murder of their key witness and other members of the class seeking certification, and would have had the F.B.I. Secret removed from the medical license decision, the Mc Knight record produced and an impartial forum defined whereat damages for the obvious that flow from the creation of judges, alteration of records, murder of witnesses and parties paid. The outcome of the next election and the institution of satellite based lasers to destroy ground facilities on earth, even our own Pentagon and White House, requires the return of the innovations to counter this eventuality and an election based upon the impeachment results of this Court and the fictitious judges.

THIS COURT MUST GRANT CERTIORARI to assist the Congress in impeaching, at minimum the fictitious Judge Ronald W. Jock and disciplining Edward J. Garcia to return military claims and the property of other nations, that was provably taken and not shown to the in bank justices of the Ninth Circuit Court of Appeals and to the justices of this court. The Congress can set the date for a new election for president if it is satisfied that the suppression of documents in this court December 11, 2000, deprived our nation of a fair and open presidential election with the issues availed to them of treason and creation of judges by the Bush respondents with murder of the key witness to their alleged involvement with Clinton

and Noriega in international drug running..

The military claims must be paid and the means established for the prompt discipline of those who create judges and who block media presentations of peril to our nation in a timely manner to save the lives of our own military, and federal agency personnel as well as the women and children of all nations who depend upon them. The full evidence will enable the Congress to proceed with a new election, to appoint new Justices to this Court, and to remove those who serve the New World Order and not the United States of America

ALL COURTS ARRESTED UNTIL FICTIONS IDENTIFIED

All courts are arrested as a matter of law by all public officials who have taken the oath to uphold the constitution of the United States of America. Those honorable members of each arrested court who know that no power exists to create judges by one party to a cause of action, or in a national election for President of the United States of America, are requested pursuant to their oaths to support the Constitution, to demand the impeachment of the fictitious judges by the Congress, and discipline of those persons who altered the records in this Court to the detriment of the petitioners, of our military, and of our nation.

IMPEACHMENT EVIDENCE SUPPORTED BY AUTHORITIES

The applications of the listed authorities to the cause of the impeachment will proceed with the identification by, prayerfully, JAG officers tasked to assist by the Senate, in defense of our nation, all parties who created the judges and who abused our men, women and children, and those of all nations. We shall function as a family, and we shall meet our commitments under the Kyoto Treaty with those innovations that would render it impossible for any military person, man, woman, or child of any nation, to be abused with Nazi-like techniques that we shall expose as our duty during the deposition and prosecution procedures. As was David let us be called to both might and justice and let us find our inspiration in the words of our in common Father.

Let us reach to the stars together, sending that message to all nations and to all beings, of the universal application of the rules of constancy and regard for one another that lifts us up on Eagle's wings and sets no tyrant above us.

Our nation will never be a sovereign nation again when any election can be attended by the creation of judges, theft of files, alteration of records, and murder of the witnesses.

The satellites have the capability to track the victims of the New World Order as attested to by the women who claim to be abused by the Bush defendants. Let us therefore track Chandra Levy, other

interns who are missing, the abused O'Briens, and those who murdered the witness to Bush, Clinton, Noriega international drug running.

BETTER WAYS EXIST THAN RUNNING DRUGS AND TREASON

The presidential platform that gifted nations with games of American culture in Japanese, Hebrew, and in all languages cannot be actuated to bring the world children together to report those of them who are missing and to train future leaders in techniques that would set behavior ahead of and in control of technology. These were in the stolen file.

NEW ELECTION IS FEASIBLE AND VITALLY NECESSARY

We can hold respondents accountable by holding a new election on the seventh day of any upcoming month and sending new leadership with faith and confidence in one another and in the family of nations to 1600 Pennsylvania Avenue to perpetuate a pattern of leadership based upon the foundations of Liberty. DHR, ICCPR, ELECTION LAWS.

CONCLUSION

The evidence of the creation of judges, who created them must be directed to the Congress with a restored federal and state court record for the purpose of impeachment of the fictitious judges and

those who created them. Military claims must be paid by those parties who produce "Echelon" and who interfered with courts, satellite communications, media access, communications among candidates, election officials and within the courts to steer the election of the President of the United States of America and to permit a newspaper to count the final votes. Interfering with communications among Justices of the Supreme Court to favor Bush v. Gore over Reiman, Clinton, USA v. Bush violates the DHR, ICCPR, the 4th,5th, 8th, 14th amendments and the international treaties that control the use of satellites for international communications in defense of all humanity. The 5th and 14th Amendment rights to due process and to open access to the political process were violated as to states and the nation whose courts were pilfered and in which judges were created to support the theft of evidence and property of people of our nation, the petitioners, and the people of all nations, particularly their children. The doctrines of foreign immunity and state do not bar intervention or original suits from recipients of the gifts and innovations removed from the 10-10-97 file that would lend support for leadership in space as opposed to fighting in space.

KYOTO TREATY VIOLATED

The Kyoto Treaty was violated by the creation of Judge Jock and another judge who was a co-defendant of the Bush defendants

because the fictions eliminated from the public record and the court houses the gifts of the nations that would offset the abuse of the Treaty, preserve it, and institute among the family of nations those innovations that would preserve leadership in space and would not advance fighting in space for mere profit at the cost of humanity's highest law of survival above the fictions, the technologies, and the deceit of the New World Order/ Fourth Reich. (Be a patient reader. Those who testified to the Senate in 1996 left no doubt but that the New World Order exists. The Reich techniques will be confirmed by the witnesses at impeachment/trial.)

VETERAN'S AFFIDAVIT

1)I am a veteran and seek re-in-statement in the military. Fictitious judges must be accounted for and the federal file restored to permit me to know who I am petitioning for re-in-statement, for counsel, and for payment of the claims of my professional colleagues.

2) I cannot afford the $300 and the State of California dismissed one appeal without prejudice for inability to pay the $3600 it insisted upon for a transcript, even though they revoked contrary to their own terms of probation and without jurisdiction, notice, or hearing.

3) Appeals cannot be had anywhere with altered records in the Supreme Court of California, Supreme Court of the United States as to the declaration of the murdered helicopter pilot witness to Clinton, Bush, Noriega drug running and the creation of the fictitious judges to exclude the evidence. This Court is requested to immediately disbar Judge Ronald W. Jock and those who submitted his orders to this Court, who covered the altered records in the Supreme Court of California with declarations to the contrary, and those who removed the 10-10-97 file and claims for over one hundred abused military families.

I declare under penalty of perjury that the foregoing is true and correct based upon information and belief and as to that based on

belief I believe it to be true. Offer of proof to the NSA and to Senator Daschle and others has been blocked by control of satellites.

_____/

This matter was referred to the Honorable Peter A. Nowinski, United States Magistrate Judge, pursuant to 28 U.S.C. 636, et seq., and Local Rule 72-302. On May 23, 2000, Judge Nowinski recommended that plaintiff's action be dismissed. Plaintiff has filed objections to the findings and recommendation.

The court has reviewed the file and finds the findings and recommendation to be supported by the record and by the magistrate judge's analysis. Accordingly, IT IS HEREBY ORDERED that:

1. The Findings and recommendation filed May 23, 2000, are adopted in full; and

2. This action is dismissed with prejudice.

On March 15, 2000, the magistrate judge filed findings and recommendations herein which were served on the parties and which contained notice that any objections to the findings and recommendations were to be filed in ten days. Plaintiff filed objections on March 21, 2000.

This court reviews de novo those portions of the proposed findings of fact to which objection has been made. 28 U.S.C. 636 (b) (1); McDonnell Douglas Corp. v. Commodore Business Machines, 656 F.2d 1309, 1313 (9th Cir. 1981), cert. denied, 455

U.S. 920 (1982). As to any portion of the proposed findings of fact to which no objection has been made, the court assumes its correctness and decides the motions on applicable law. See Orand v. United States, 602 F. 2d 207, 208 (9th Cir. 1979). The magistrate judge's conclusions of law are reviewed de novo. See Britt v. Simi Valley Unified School District., 708 F. 2d 452, 454 (9th Cir. 1983)

The court has reviewed the applicable legal standards and, good cause appearing, concludes that it is appropriate to adopt the Proposed Findings and recommendations in full. Accordingly, IT IS ORDERED that:

1. The Proposed Findings and Recommendations filed march 15, 2000, are ADOPTED; and

2. This action is dismissed with prejudice.

Here we have no idea whether the Magistrate, or any judge is the fictitious judge created, Judge Ronald W. Jock whose puerile name is consistent with other fictions such as Irwin Peach, and the coercion of one federal judge, a co-defendant of the Bush defendants to be "judge". All "judge" signatures are to be considered those of the defendants until litigation exposes the fictions and the scope of their power.)

UNITED STATES DISTRICT COURT

EASTERN DISTRICT OF CALIFORNIA

JOHN KARL REIMAN, CIV.S-00-481-LKK-PAN-PS

Plaintiff,

v. ORDER

GRAY DAVIS, GOVERNOR OF CALIFORNIA, et al.,

Defendants

On March 7, 2000, I recommended the court deny plaintiff's motion for temporary restraining order and dismiss plaintiff's complaint on grounds plaintiff's complaint failed to invoke any federal right and because the relief sought, to enjoin the March 7 primary election, was moot. (He did not care to enjoin the election. Voting had not commenced. It was not moot. Communications with the other candidates were being blocked on the Internet via the same military unit that blocked to the NSA Iowa Caucus, South Carolina, New Hampshire, United Nations Human Rights Committee had been blocked as well as to Robert Redford and later with the plaintiff's campaign manager who was to contact Redford through "Radar" on Mash and broker the military claims for $300 million to purchase television time to campaign on the issues of treason against the United States and violation of international satellite laws, drug running, assassinations, placement of weapons, technology transferences of anti-human high tech used

against the military personnel and civilians.) On March 14, 2000, plaintiff filed a "motion for reconsideration" wherein he states that my findings and recommendation failed to address plaintiff's motion to compel United States Attorney General Janet Reno (a defendant with the Bushes) to identify the allegedly "fictitious" judge Ronald W. Jock. In the 'motion for reconsideration" plaintiff summarizes his earlier complaint and purports to incorporate by reference his original complain in this action and the complaint he filed in civil action S-99-2249 LKK GGH. (Note this is evidence because the case is later changed to S-99-2249 EJG GGH, Edward J. Garcia, a co-defendant with Reno and ex-President George Bush, George W. Bush. The stolen military claims for $21 million for each family was on Garcia's watch in CIV-92-00066-EJG. That file with the complaints and the property of other nations has never been litigated, was unnecessary to the earlier decisions, was never litigated on the merits, and contains different parties as those who murdered the helicopter pilot remain unknown and other events revealed new defendants.)

I construe plaintiff's "motion for reconsideration" to be an amended complaint (It is not. One can be amended when we know who is Judge Jock, why the Bush defendants had the power to create a judge and name a co-defendant as "judge" after LKK had been assigned to the case.)

A federal court must dismiss the complaint of a

plaintiff proceeding in forma pauperis if it is frivolous, malicious, fails to state a claim upon which relief may be granted or seeks monetary relief from a defendant who is immune from such relief. 28 U.S.C. 1915 (e)(2)(B). Pro se pleadings must, however, be liberally construed. Balisteri v. Pacifica Police Dept, 901 F. 2d 696, 699 (9th Cir. 1988). In addition, a pro se litigant should be afforded an opportunity fairly freely to amend his or her complaint unless it is absolutely clear that no amendment will cure the deficiencies. Noll v. Carlson, 809 F. 2d 1446 (9th Cir. 1987), superseded by statute as to prisoner-litigants, 28 U.S.C. 1915 (e)(2)(b)(ii), see also Christensen v. Commisioner of Internal Revenue Service, 786 F. 2d 1382, 1384-1385 (9th Cir. 1986), citing Holmes v. Goldin, 615 F 2d 83, 85 (2d Cir. 1980). Therefore before dismissing a pro se complaint "the district court must provide the litigant with notice of the deficiencies in his complaint in order to ensure that the litigant uses the opportunity to amend effectively." Ferdik v. Bonzelet, 963 F. 2d 1258, 1261 (9th Cir. 1991).

Federal Rule of Civil Procedure 8 (a) (2) states that a pleading which sets forth a claim for relief shall contain "a short and plain statement of the claim showing that the pleader is entitled to relief."

Plaintiff's complaint fails to comply with the requirements of Rule 8 (a) (2) and fails to state a claim upon which relief may be granted. Consequently, plaintiff's complaint is

dismissed with 20 days leave to amend.

If plaintiff chooses to amend the complaint, he must state the elements of his claim plainly and succinctly and must allege with at least some degree of particularity overt acts by specific persons or entities that support the claim. See Jones v. Community Redevelopment Agency, 733 F. 2d 646, 649 (9th Cir. 1984). Pursuant to Local Rule 15-220, the amended complaint must be complete in itself without reference to any prior pleading. Furthermore, the amended complaint must comply with the Federal Rules of Civil Procedure and the Local Rules of Practice, bear the docket number assigned this case, be labeled "Amended Complaint," and plaintiff must file an original and two copies of it. Failure to file an amended complaint in accordance with this order will result in a recommendation that this action be dismissed.

FINDINGS AND RECOMMENDATIONS

Plaintiffs, proceeding pro se in this action, filed an amended complaint on January 7, 2000. Although the amended complaint is largely incomprehensible, it appears, based on the court's review of the file in this matter and court records of past actions filed by these plaintiffs in this court (was the stolen 10-10-97 file reviewed, the altered medical records and the declarations of fitness and excellence of the plaintiff's role as flight surgeon, researcher, medical doctor, and military officer are contained therein. This is highly inappropriate to access what the plaintiffs's are trying to have litigated before a jury in a forum where the defendants cannot create judges. The murdered helicopter pilot's declaration that Bush, Noriega, and Clinton were involved in international crimes and the coup documents were in this file!) That plaintiffs continue to bring challenges to matters connected to the suspension of John K. Reiman's California medical license, and also challenge previous court proceedings and various political matters. See E.D. Cal. cases Nos. CIV 92-0066 EJG and CIV 99-1761 LKK GGH PS.

PRELIMINARY FACTS

First, this action appears to be an improper attempt to amend case No. Civ 99-1761 which was dismissed by the District

Judge on recommendation of the undersigned for lack of subject matter jurisdiction. The complaint which initiated this action originally contained the 99-1761 case number, which appears to have been lined through at the time this case was filed as a new action. The above dismissed previous Easter District cases and the instant case seemingly relate to the same incidents. (**"Seemingly" cannot be a finding of fact particularly when the key witnesses in the case are being murdered.** The cases are all involved with the undefined scope of the fictitious judges who cooperated to remove the file that must be returned to permit litigation, not barred by res judicata nor collateral estoppel, to proceed against those who stole the file and created the judges who ignored the stolen file. The creation of the fictitious judge Ronald W. Jock and the co-defendant of Bush (es) and Reno, Garcia appearing as the "judge" to cover-up the theft of the 10-10-97 file with $2 billion in state control board cleared claims is a very serious crime. The file has never been litigated and cannot until it is returned and the body of Tatum is returned, the identification of the Judges is determined by the Senate. Other facts have to be determined by the Senate in impeachment of those who created the judges: who altered documents in the Supreme Court of the United States; who suppressed the enjoinment of the national electors until the fictions were identified and the public was made aware of the creation of judges and the murder of the key witnesses to the coup against the

United States; who blocked communications with the NSA; who blocked mail directed through Congressman Gary Condit to each member of the Congress related to the subculture of the drug running and abuse of women and children. These issues have not been litigated and are to be considered with the location of blocked communications with Robert Redford and return of the plaintiff's campaign manager Mr. James Ragsdale. Women who were assisting locating Redford, Ragsdale, Senator Lieberman were "tortured" with high technology in Florida. See communications with the Florida courts.) Alteration of documents, theft of court files, invention of judges, and assassination confirm the coup. This magistrate's "findings" are undercutting the serious nature of the elements of the case. Is this done at the request of the co-defendants Garcia, Bush, Reno? Specific women need to be protected to permit their testimony to surface as to their lurid abuse by politicians.) For example, the instant case contains references to numerous previous court and administrative proceedings, allegations concerning a "fictitious" Judge Jock, charges regarding missing documents from prior court cases, insubstantial allegations of court clerk fraud, and vague references to incredible incidents. This action complains of drug running, assassinations of various persons, "women in high voltage cases," [¶ 2D], "black operations, which employed Linda Tripp" [¶ 4-5], New World Order cult acts [5], use of high technology weapons to injure plaintiffs [¶8], FBI secrets

inserted into administrative law decisions [¶9], "the cutting of ears from babies. creation of calling cards from them, and stun gunning of our own women" [¶7], and the Bush "order of the Rose" "that allegedly functioned on the public payroll" [¶11]. Various political matters are alleged, such as:

This is clearly the time to clean house and to restore our nation to a position of leadership in the community of nations that supports control of corruption in the vertical hierarchies of governments. Let there be no mistake, we will provide the leadership to destroy the "Beast" and to teach the global military to land one squadron of doves at a minimum. .

In a similar vein, the amended complaint in this action also refers to FBI "black operations". CIA "standard denials," and it charges the New World Order cult surrounded President Reagan and "may have applied ELF and microwave technologies to accelerate his Alzheimer's and to give George Bush control."

Compare the forgoing allegations to the following allegations, taken from Case No. 99-1761: allegations concerning FBI "secret" language in administrative law judge decisions, to condemnation of a "French boy" to a "lawless society of the New World Order." (Compl. at 22) and to allegations such as "one member of the class will testify that both Bushes (George Bush and George W. Bush abused her daughter." (id), "[we will effectively regain the sovereignty of our own nation and run our own candidates

for President and for the Congress who will have the good sense not to steal from courts and cover-up murder." (id). "Efforts to run colonel Reiman for governor of California resulted in the stealing of the nomination signatures, the placement of a bomb in the car of the collector and additional intimidation of Reiman's body guard and recently, his fund raiser," (id at 23.), "high technology infliction of mayhem, central nervous system lymphomas, Alzheimer's cerebral atrophy, cardiomyopathies and arrhythmias in persons without prior cardiac disease." (id), "others will follow in the path we establish to return our nation to the hands of its good stewards and to release women from forced copulation with animals to pleasure politicians," (id), and "defendants drove us from our gold and platinum mines, interfered with runs for public office, removed chat pages with games of international accord from the rogue controlled Internet and interfered with poetry and anthologies of national literature sales to promote global accord and imprisonment of political figures that communicate and plot through the covert community," (id at 24), and allegations concerning the United States invasion of Kuwait. (id).

AMENDMENT OF PRIOR ACTION

Plaintiffs may not amend a prior case by filing a new action after the prior case is dismissed. Accordingly, to the extent plaintiffs intended to file an amendment to Case No. 99-1761, this action was improperly opened as a new action, and should be dismissed.

CLASSS STANDING

As a preliminary matter, in the amended complaint plaintiffs apparently have attempted to join numerous persons as parties plaintiff such as–"the Supreme Court of the United States and its clerks," (¶1P), "Cathy O'Brien," (¶2D), Monica Lewinski, President Clinton, Victor Ostovsky (¶12), Mark Phillip and Kelly O'Brien (¶14), Rodney Stitch, Terry Reed, Victor Ostovsky, Gary Webb (¶16), John Pop (¶17). Plaintiffs are not lawyers and may not represent individuals or a class. It is well established that a layperson cannot ordinarily represent the interests of a class. See McShane v. United States, 366 F,2d286 (9th Cir. 1966). In direct terms, plaintiff cannot "fairly and adequately protect the interests of the class." as required by Rule 23(a)(4) of the Federal Rules of civil Procedure. See Martin v. Middendorf, 420 F Supp. 779 (D.D.C. 1976). This action, therefore, will not be construed as a class action and instead will be construed as an individual civil suit brought by plaintiff.

SUBJECT MATTER JURISDICTION

The court has sua sponte considered whether it has jurisdiction over the matters alleged in the amended complaint. Lack of subject matter jurisdiction may be raised at any time by either party or by the court. (Subject matter is interference with the national election for president, interference with state political process through creation of fictitious judges, blockade with the other state courts, including Florida, and alteration of documents

in the Supreme Court of the United States. The theft of the 10-10-97 file, the federal rights protected and the foundation for the claims contained therein, identification of the power that creates judges and permits defendants to do this is relevant to return of the property of the plaintiffs. **The judge who says "lack of subject matter jurisdiction" does so as a shield because he could be the fictitious judge or under the power of those who created them in this court. This "decision" is exterior to the jurisdiction of the Eastern District in which the fictions are created for the benefit of the defendants. The Congress has the power to hold the fictitious judges accountable and to redefine the federal judiciary so trial can proceed against the fictions created in the Eastern District. The subject matter is not political and non justiciable nor excluded from the jurisdiction of the reviewing courts or the Senate that tries the fictions, the international tribunals that demand return of their expropriated property. This property is in the form of gifts of children's games to each of the 192 nations in lieu of international drugs. The key to implement international use of the innovations, Awareness Centers, Councils on International Accord, International perspective "Parties" of children, to defend against the Treaty violations and abuse of women, children technology is in the removed file. The file is thus "political" property of the plaintiffs and the Iowa Caucus documents, also interrupted from**

reaching Mr. Redford, prove that access to the political arena, and access to the courts where the "government" is known down to the fictitious judges is an internationally protected right. The powerful politicians and power brokers who create the judges are excluded from these "options" to do so. This exclusion is as a matter of law because they choose to protect themselves from exposure for international crimes. The return of the 10-10-97 file with an accounting aides the return of the body of the helicopter pilot to the Senate with evidence who had him murdered. Bush? Noriega? Clinton? Jock? Reno? Who is Jock? Who is Irvin Peach? Why can't the abused women and children be called as witnesses at trial in this case with the courts restored to testify against the Bush defendants?) See Attorneys Trust v. Videotape Computer Products, Inc., 93 F. 3d 593, 594-95 (9th Cir. 1996); accord, Apple v. Glenn, 183 F. 3d 477, 479 (6th Cir. 1999) ("a district court may, at any time, sua sponte dismiss a complaint for lack of subject matter jurisdiction pursuant to Rule 12 (b) (1) of the Federal Rules of Civil Procedure when the allegations of a complaint are totally implausible, attenuated, unsubstantial, frivolous, devoid of merit, or no longer open to discussion.")

A federal court is a court of limited jurisdiction, and may adjudicate only those cases authorized by the Constitution and by Congress. See Kokkonen v. Guardian Life Ins. Co. 511 U.S. 375, 377, 114 S. Ct. 1673, 1675 (1994). U.S. Const. Art

III, 1 provides that the judicial power of the United States is vested in the Supreme Court, "and in such inferior Courts as the Congress **may from time to time ordain and establish."** Congress therefore confers jurisdiction upon federal district courts, as limited by U.S. Const. Art. III, 2. See Ankenbrandt v. Richards, 504 U.S. 689, 697-99, 112 S. Ct. 2206, 2212 (1992). The basic federal jurisdiction statutes, 28 U.S.C.. 1331, & 1332, confer "federal question" and "diversity" jurisdiction, respectively. Statutes which require specific subject matter may also confer federal jurisdiction. See generally, W.W. Schwarzer, A.W. Tashima & J. Wagstaffe, Federal Civil Procedure Before Trial 2.5.

"The presumption is that a federal court lacks jurisdiction in a particular case until it has been demonstrated that jurisdiction over the subject matter exists." 13 Charles A. Wright, Arthur R. Miller & Edward H. Cooper, Federal Practice and Procedure 3522 at 62 (1984). Plaintiff bears the burden of proof for establishing jurisdiction. See e.g.,Sopcak v. Northern Mountain Helicopter Serv., 52 F. 3d 817, 818 (9th Cir. 1995); Thornhill Pub. Co. v. General Tel.&Electronics Corp.U 594 F.2d 730, 733 (9th Cir.). A federal claim which is so insubstantial as to be patently without merit cannot serve as the basis for federal jurisdiction. See Hagans v. Lavine, 415 U.S. 528, 587-38, 94 S. Ct. 1372, 1379-80 (1974); Bell v. Hood, 327 U.S. 678, 682, 66 S. Ct. 773, 776 (1945).

The instant case cannot be a diversity case because

California residents are named as defendants. Therefore, unless the complaint presents a plausible assertion of a substantial federal right, (to know who the government is we "petition" when we have to approach courts where the judges are not presumed to be who they are because of the creation of two fictitious judges by powerful politicians who are defendants in the court, to enjoin an election for block of communications with the "government" and other candidates for office, to restore federal records to proceed to trial to recover the military and plaintiff claims for reprisals including death and infliction of pain and suffering for going up against international political drug runners as a political "platform.") a federal court does not have jurisdiction. See Bell v. Hood, 327 U.S. 678, 682, 66 S. Ct. 773, 776 (1945).

A less stringent examination is afforded pro se pleadings, Haines v. Kerner, 404 U.S. 519, 520, 92 S. Ct. 594, 595, 30 L. Ed. 2d 652 (1972), but simple reference to federal law does not create subject matter jurisdiction. Avitts v. amoco Prod. Co., 53 F. 3d 690, 694 (5th Cir.. 1995). Subject matter jurisdiction is created only by pleading a cause of action that is within the court's original jurisdiction. Id.

The mostly incomprehensible amended complaint presents no plausible basis for federal question jurisdiction. The facts alleged **apparently** (this is not a factual determination) concern, inter alia, judge's orders in state court proceedings. See e.g., references to

Judge Ronald W. Jock at ¶ 1 (B), (C), (E), (F). Lower federal courts, however, do not have jurisdiction to review errors in state court proceedings. **(It is imperative that the Senate and the Supreme Court of the United States understand that Garcia is the co-defendant of George W. Bush, ex-President George Bush, and Janet Reno. The author od f this document is aware of these facts and the naming of the entire Eastern District as defendants on the bizarre circumstances of the creation of judges among the judges with no objection thereto to the Senate or to any Judicial higher authority in disregard for the Canons of the Judicial Council and the integrated Bar of California.** Until factually determined, all three, are "Jock" and Garcia is a co-defendant who received the summons and complaint **before he was "assigned" to the case.** The Notice of Service from the Clerk excludes them and is evidence of the work of "Jock" until proved otherwise.) District of Columbia Court of Appeals v. Feldman, 460 U.S. 462, 476, 103 S. Ct. 1303, 1311-1312 (1983); Rooker v. Fidelity Trust Co, 263 U.S. 413, 415, 44 S. Ct. 149, 150 (1923). "The District Court lacks subject matter jurisdiction...to scrutinize the state court's application of various rules and procedures pertaining to the state case." Samuel v. Michaud, 980 F. Supp. 1381 1411-1412 (D. Idaho 1996). See also Branson v. Nott, 62 F. 3d 287, 291-92 (9th Cir. 1995) (finding no subject matter jurisdiction over 9183 claims seeking, inter alia, implicit reversal of state trial court action);

MacKay v. Pfeil, 827 F. 2d 540, 544-45 (9th Cir. 1987) (attack on state court judgment because of substantive defense improper under Rooker-Feldman). That the federal district court action alleges the state court's action was unconstitutional does not change the rule. See Feldman, 460 U.S. at 486, 103 S. Ct. at 1316-1317.

Moreover, matters committed by the Constitution to the Executive branch of government are political questions which are non-justiciable. See e.g. Haig v. Agee 453 U.S. 280, 191, 101 S. Ct. 2766 (1981); Armstrong v. United States, 759 F. 2d. 1378, 1380 (9th Cir. 1985). Federal courts may not adjudicate "abstract questions of wide public significance" constituting "general grievances," Valley Forge Christian College v. Americans United for Separation of Church & State, Inc., 454 U.S. 464, 474-75, 102 S. Ct. 752, 759-60 (1982). Fed. R. Civ. P. P. 8.

When a complaint fails to comply with the requirements of Rule 8 (a), the district court has the power, on motion or sua sponte, to dismiss the complaint or to strike those parts of the complaint that are redundant or immaterial. Simmons v. Abruzzo, 49 F. 3d 83, 86 (2d Cir. 1985). Such a dismissal without leave to amend is rarely entered, and is reserved for "cases in which the complaint is "confused, ambiguous, vague, otherwise unintelligible..." Cf. Omar v. Sea-Land Service, Inc. 813 F. 2d 986, 991 (9th Cir 1987) (observing that trial court may dismiss a claim sua sponte pursuant to Fed. R. Civ. P. 12 (b) (6) without notice

"where the claimant cannot possibly win relief.") **(The stolen military claims would have to have been read to make this determination. The claims are based on reprisals taken for reporting the international crimes of politicians who may be serving as the fictitious judge Jock or any other fictitious name as their "humor" and arrogance suits them.)** Saunders v. Division of Parole, State of New York, ___F.R.D___, 1998 WL 12113 *2 (S.D. N.Y. 1998) (stating, in sua sponte dismissal pursuant to Fed. R. Civ. P. 12 (b) (6), that [a] plaintiff asserting fantastic or delusional claims should not, by payment of a filing fee, obtain a license to consume limited judicial resources and put defendants to effort and expense.") **(The efforts to enjoin the electors until the abused and missing women could be permitted to speak on national television and relate what the Bush defendants did to them was not permitted to reach the Members. Congressman Condit and a few others were directed the notice of service to the Members because of prior mail thefts, even certified mail to Governor Davis alerting him to the acts of treason. Governor Davis is a graduate of the United States Naval Academy and has a duty to determine who is killing the witnesses and abusing the women while going un-scrutinized because of the creation of judges.)** This case appears to be the exceptional case where dismissal would be appropriate pursuant to Rule 8, without granting leave to amend.

Fed. R. Civ. P. 8 sets forth general rules of pleading in the

Federal Court. Complaints are required to set forth (1) the grounds upon which the court's jurisdiction rests. (2) a short and plain statement of the claim showing entitlement to relief; and (3) a demand for the relief plaintiff seeks. Rule 8 requires "sufficient allegations to put defendants fairly on notice of the claims against them." McKeever v. Block, 932 F. 2d 795, 798 (9th Cir. 1991).

The amended complaint satisfies none of the above requirements. There is no ground for jurisdiction. There is no short and plain statement of the plaintiff's claims (**Restore the federal record, identify the fictitious judges, and pay the military claims that were converted from the federal court, and proved with file stamped copies, at full value is plain enough. Enjoin the election and have Reno identify the fictitious judges so the nation can exclude the fictions from public office and from the presidency is a claim. Plaintiff has standing for entering the race as a candidate whose platform is so stated in part. Return of the key witness' body and plaintiff's campaign manager is proper current amendment after impeachment of the fictions and restoration of the federal record.)** There is no demand for relief (untrue). Even if the factual elements of the cause of action are present, but are scattered throughout the complaint and are not organized into a "short and plain statement of the claim," dismissal for failure to satisfy Rule 8(a) (2) is proper. McHenry v. Renne, 84 F.3d 1172, 1178 (9th Cir 1996) (stating that a complaint

should set forth "who is being sued, for what relief, and *on what theory*, with enough detail to guide discovery" (emphasis added.)). A complaint that fails to comply with rules 8(a) and 8(e) may be dismissed with prejudice pursuant to Fed. R. Civ. P. 41(b). Rule 8: Nevijel v. North Coast Life Ins. Co., 651 F.2d 671, 673 (9th Cir. 1981)). Further, "the propriety of dismissal for failure to comply with Rule 8 does not depend on whether the complaint is wholly without merit." McHenry, 84 F.3d at 1179.

PRECLUSIVE EFFECT OF PRIOR ADJUDICATION

Finally, it seems plaintiff seeks to challenge matters related to the suspension of his medical license. Courts sua sponte have raised the issue of res judicata or claim preclusion despite Federal Rule of Civil Procedure 8(c) which states that a party should plead res judicata as an affirmative defense. See, e.g., McClain v. Apodaca, 793 F.1d 1031, 1032-33 (9th Cir. 1986) (affirming bankruptcy court sua sponte consideration of res judicata); but see State of Nevada Employees Ass'n v Keating, 903 F.2d 1223, 1225 (9th Cir 1990) (rejecting sua sponte decision on preclusion because court did not allow briefing of the issue). In this case, plaintiff has provided the court, as an attachment to his amended complaint, with the memorandum opinion of the Ninth Circuit denying his appeal of Case NO. 92-0066 EJG.

The dismissal of plaintiff John Reiman's prior case No.

92-0066, pursuant to Fed. R. Civ. P. 41(b), as affirmed by the Ninth Circuit, operates as an adjudication on the merits of plaintiff's prior case concerning constitutional and statutory violations arising from the suspension of this medical license, and plaintiff may not re-litigate these matters. Under the doctrine of res judicata, "(a final judgment on the merits bars a subsequent action between the same parties or their privies over the same cause of action." The Fund for Animals, Inc. v. Lujan 962 f.2d 1391, 1398 (9th Cir. 1992), quoting David & Cox v. Summa Corp., 751 F.2d 1507, 1518 (9th Cir, 1985).

VEXATIOUS LITIGANT WARNING

"District courts have the inherent power to file restrictive pre-filing orders against vexatious litigants with abusive and lengthy histories of litigation." Weissman v Quail Lodge, Inc. 179 F.3d 1194 (9th Cir. 1999)(citing Delong v. Hennessy, 912 F.2d 1144, 1147-48 (9th Cir. 1990)); see also Mov v. United States, 906 F.2d 467. 469 (9th Cir 1990). Repetitious filing of identical groundless claims is sufficient to find that a kparty's litigation is frivolous and will likely continue. See Johns v. Town of Los Gatos, 834 F. Supp. 1230, 1232 (N.D.Cal. 1993). Plaintiffs are strongly cautioned that future attempts to litigate matters not properly before the court may result in a declaration that plaintiffs are vexatious litigants. If so, a pre-filing review order may be entered precluding plaintiffs from opening new cases in this District prior to review for merit by a

Judge of the Court.

FUTILITY OF AMENDMENT

While the court ordinarily would permit a pro se plaintiff to amend, amendment to cure defective jurisdictional allegations is proper only to correct "incorrect statements about jurisdiction that actually exists, and not defects in the jurisdictional facts themselves." Bull HN Information Systems Inc. v. Hutson , 184 F.R.D. 19, 22 (D.Mass. 1999) (citing Newman-Green, Inc. v. Alfonzo-Larrain 490 U.S. 826, 109 S. Ct. 2218 (1989). Moreover, in any event, leave to amend should not be granted where it appears amendment would be futile. See Noll v. Carlson, 809 F.2d 1446 (9th Cir. 1987). In this case, the court has concluded that amendment of the complaint would be futile.

Accordingly, IT IS RECOMMENDED that this action be dismissed with prejudice.

These findings and recommendations are submitted to the United States District Judge assigned to the case, pursuant to the provisions of Title 28 U.S.C. sec. 636(b)(1). Within ten (10) days after being served with these findings and recommendations, any party may file written objections with the court and serve a copy on all parties. Such a document should be captioned "Objections to Magistrate Judge's Findings and Recommendations." Any reply to the objections shall be served and filed within ten (10) days after service of the objections. The parties are advised that failure to

file objections within the specified time may waive the right to appeal the District Court's order. Martinez v. Ylst, 951 F.2d 1153 (9th Cir. 1991).

The next document is proof that those parties who changed the dates to avoid production of the records in a timely manner to permit the Congress to intervene with the Electors to halt the election for president until the scope of undue influence of the Bushes on the Judiciary could be determined, over looked the "buried" document and failed to change it as well. This evidence is central to the return of the body of the helicopter pilot and the missing women and children who were "buried" while political process and access thereto on their behalf was stamped CLOSED to all candidates except those approved by the New World Order cult.

SUPREME COURT OF THE UNITED STATES

October 2000, Term

Notice of Arrest

There is no provision for the form in which the arrest of the Supreme Court must appear. The Authority of the Arrest of the Court is brought as a commissioned officer, commissioned for life by the United States Senate, who acts with full faith and allegiance to the Constitution of the United States. Facially, the "Arrest" may appear trivial, even "goofy". We assure you that such is not the case. The Congress of the United States, the People, are the only remedy for the creation of a fictitious judge and for the theft of claims from the courts of claims for the **people** who report a coup d'etat against the United States of America, even though the media is contained and held silenced by to be determined members of the New World Order cult identified in the attached papers. The Court is requested to obtain the "Excerpts" from the ninth Circuit Court of Appeals in 00-16522 and direct them to each member of the Congress and to the other parties as requested.

A stay of the appeal is imperative until the Congress of the United States can identify the fictitious judges created by the defendants, the scope of the "employment" and their roles in the identified coup d'etat against the United States of America. The material is also needed for political reasons to bring in a timely manner to the attention of the **people** of the United States before the presidential

election. Sua sponte protective measures of the people of the United States and the plaintiff appellants are requested under these bizarre circumstances of the creation of judges. Our lives depend upon the full faith and allegiance of the Court.

THIS DOCUMENT, JUST TO THE RIGHT OF "October Term, 2000" has the evidence of the alteration of the stamp in the Supreme Court of the United States from the earlier date of Sep 28, 2000, as proved on the "buried" document noted just preceding. The time was more than sufficient to have the Congress intervene before November 7 to enjoin the election as a matter of law. This time was imperatively needed, and due to the people of the United States of America, to the candidacy of Reiman and Redford, to permit the $300 million in brokered claims to purchase national television time to flow to reveal the coup and the closure of plitical process in the United States of America. The time was imperatively needed, and due the people of the United States of America so as to identify the creation of judges, the interference with evidence of Bush involvement in New World Order cult activities, the abuse of women, children and the theft of our own military member claims and those persons who depended upon them to do their jobs. We each have the right to launch a new election on the seventh day of any upcoming month to open and to assure that it shall never be closed again, the political process of the United States of

America. Our people may well reflect upon the need to restore compassionate capitalism, our women and our children and to obviate "lay offs" in defense of United States labor. Our C3I has been selected to serve our people, not to imprison them with technology beyond the imagination of the people and those not privy to War College educations. Please read the Iowa Caucus documents in the complete format to be provided with the Bush deposition questions, blocked from reaching the Republican Delegates, to our Congress, by this Court, under full faith and allegiance to the Constitution and to the DHR, ICCPR. The same is to be provided to the Civil Rights Court in Strasbourg and to the Hague. All people of any nation can pull together to return Scott Speicher, Dois Gene Tatum, the O'Briens, Chandra Levy, and the evidence relevant to the murdered daughter of the mother who bravely risked her own life to get the evidence through to the Congress by appealing to Congressman Gary Condit and to others. Our nation shall survive, God willing, upon the constancy of our regard for one another, leaving no persons outside of the political nor legal arenas. May we assure the safety of all as the Congress reviews the evidence of peril.

STATE OF FLORIDA
LEON COUNTY CIRCUIT COURT

CAPTION

Amicus Demand
For Judicial Notice
Of Suppression of Relevant
Evidence, Federal Bureau
Of Investigation Notification
Of Creation of Fictitious Judges
Arrest of George W. Bush

Your honor:

This demand is made pursuant to the Full Faith and Allegiance Duty Clause of the United States Constitution. Each United States citizen is bound by "sacred" honor to recognize those fundamental inalienable rights that inhere in the Privileges and Immunities Clause, the Due Process Clause of the 5th Amendment, and the Due Process Clause of the 14th Amendment. Election fraud evidence relevant to the Florida election before this court is contained in 00-16522, Ninth Circuit and the Excerpts which the F.B.I. is to deliver to the United States Congress as a matter of law to impeach a

fictitious judge and a co-defendant of ex-President George Bush and George W. Bush in 00-16522.

We cite both the 5th and 14th Amendments because the abuse of the discretion of the Secretary of State in certifying election results was made in bad faith as a matter of law. The discretion was abused as to violation of due process by acts taken under the penumbra of the Federal Government and the State of Florida. The acts were taken with persons yet to be identified by the Federal Bureau of Investigation.

Five hours after the Federal Bureau of Investigation was availed of the evidence of the coercion of a co-defendant of George W. Bush, ex-President George Bush, and Attorney General Janet Reno in 00-16522 Ninth Circuit Court of Appeals, San Francisco, California to appear as "judge" the votes were certified by the Secretary of State. The proximate and actual cause of the premature certification of the election while ballots were left uncounted can be proved to be fear of exposure of the suppression of evidence from reaching the Republican Delegates in Philadelphia.

The Federal Bureau of Investigation was demanded, also under the Full Faith and Allegiance Duty of the United States Constitution to notify the election officials in the State of Florida of the arrest of

George W. Bush by a military officer under the authority of commission by the Senate of the United States and the duty to defend the United States.

The four thousand delegates to the republican Convention in Philadelphia were blocked from receiving the deposition questions of the Bushes that specifically addressed their alleged involvement in the abuse of women at C.I.A. facilities and the cover-up of an attempt upon the life of President William Jefferson Clinton in San Francisco in 1992 as accounted in altered publications that remove the name of a contact with the Republican Headquarters in that time frame.

The relevance of the appearance of a co-defendant of the Bushes in this action to stay the California primary election on the grounds of election crimes was to interfere with communication to Senator McCain and to the other presidential candidates of evidence of the creation of another fictitious "judge," Ronald W. Jock.

The Chief Justice of California bears a strikingly similar name to "Judge" Jock. The federal court declaration filed in 92-CV-0066-EJG and subject of 00-16522, Ninth Circuit, names a Mossad agent with ex-President George Bush, Governor Clinton, and Manuel Noriega (infra). One witness claims that Mossad double agents worked the White house situation room, and the President informed

Monica Lewinsky that he feared that the Oval Office phone was bugged by a foreign power. THE DAY AFTER A COPY OF THE DECLARATION WAS SENT TO President Clinton, it disappeared from the state court file. We have certified copies showing material alterations of the California file. The issue is whether a Mossad double agent called the chief Justice and had the declaration removed. That declaration is in the Excerpts of 00-16522 and is extremely relevant to the premature certification of the election results subject of this court's consideration. The relevance to the election in Florida is the block of exposing the issues and exploring the involvement of the State of Florida in the BCCI scandal that involved the corruption of many public officials and which is also referenced in the Excerpts.

Governor Jeb Bush was named in documents that were incorporated into the related litigation of 00-16522. Thus the possible refusal of the federal Bureau of Investigations to timely alert the election officials to the demand in the that the Excerpts in 00-16522 be provided each member of the Congress so as to impeach the fictitious judges and to define the scope of the power that enabled their creation, is relevant and must be developed on direct and cross examination. As you are aware, ex-President George Bush headed the South Florida drug task force in the early 1980's. The issue of undue influence upon the election officials in Florida to suppress

the imminent impeachment of a fictitious judge and those who created him and the motivations for creating the judge are relevant to the premature certification of the election as "final".

It is a proposition too clear for rebuttal, and violates both the 5th and 14th Amendment depending upon which states were involved and which federal government officials were involved in the theft of a federal court room file described below in part, that a fictitious judge must be impeached by the Congress. It is insufficient as a matter of law that one party knows when it will influence or create a judge and the other party does not know whom it is that is being petitioned for redress of fundamental rights. In your instance, by example, you know who you are and you purport to be whom it is that you are and all clearly see who you are. What is not seen, is what appellate justice, state or federal, would be under the influence of the defendants in 00-16522.

Alterations of documents in the Supreme Court of the united States and block of a "Notice of Arrest" of the Court so as to provide the evidence the Court had in its possession as to orders received by way of exhibit from the fictitious judge, and alteration of dates on the documents that occurred in the Supreme Court were shown to the F.B.I. These are relevant to Florida in two respects.

A) All appeals from the State of Florida that arise from

state or federal courts in Florida must await the determination of the power behind George W. Bush and ex-President George Bush that enables them to have a co-defendant appear as judge.

B) Election officials, as a matter of law, are void of the power to certify election results when the Judicial Branch has been "broken" by the creation of judges in any number, or influenced in any fashion. The Legislative Branch cannot function without an intact judiciary because there is then no checks and balance. The framers of the Constitution contemplated three co-functioning, harmonious branches of government. The Separation of Powers are not hermetically sealed as to the federal government and the Necessary and Proper Clause is binding on all three branches of the federal government. The creation f federal and state judges by a powerful political force, undefined by the public, requires the immediate cessation of all judicial acts until the scope of the power that creates judges is defined. The only remedy is for the Congress to restore the Judicial Branch of the federal government by defining the scope fo the fictitious-judge power. Besides being arrogant, the creation of judges is treason because it is an act of war against the united States and the power that creates judges is foreign to the united States that permits no class to arise apart from merit. The tradition of civilized nations excludes the power to privately create judges to act in assumed official capacity. To the extent that the Congress identifies the scope of that power to extend to election

officials and which ones, the election cannot proceed.
The Electors are also bound by the Full faith and Allegiance duties and cannot vote for an arrested candidate until the Congress determines if the candidate can "Qualify" in the legal context of the 20th Amendment, as an arrested and possibly convicted person in the "Open Court" of the Congress which is the only forum to address the issues when the judicial Branch has been incapacitated by the creation of judges. There is no impending deadline for electors which compels haste before the judicial branch, both state and federal is redefined.

The "Open Court" is also relevant in a trial for treason where conviction turns upon the confession in the 'open Court" or upon the testimony of two witnesses. The federal file that was removed contains proof of Treason in a declaration availed to the Federal Bureau of Investigation. The Congress has the duty to call the declarant and to fully examine the blocked deposition questions, the created judges, and the Excerpts of 00-16522.
The Excerpts possibly are the motivation for George W. Bush to seek early certification before all the ballots were counted because they contain allegations of abuse of women by ex-President georeg bush, George W. Bush and Dick Cheney. Five hours after it became clear that the Excerpts would be directed to the Congress as a matter of law and duty, the votes were refused to be counted.

Witness and counsel protection are needed for twowomen in Florida who have been subjected to high technology abuse that we believe to be under control of the same power that created the judges.

Ms. Sheila Epstein of West Palm Beach has been abused with the high technology and made efforts to reach a Mr. James Ragsdale, a Mr. Art Bell, to secure assistance and treatment. Other persons who cannot be named at this time attempted to reach Ms. Epstein and Ms. Joanne Cary, also of Florida, who has been abused with high technology, as have two other field grade officers, and to obtain television coverage f the abuse, the creation of the judges, the block of communication of evidence on drug running with high political involvement to other presidential candidates. Internet communication efforts to reach Senator Lieberman, Senator McCain were repeatedly blocked.

Most disturbing is the declaration of the helicopter pilot that he heard ex-president George Bush, Governor Clinton and Noriega in a conversation over the siphoning off of $100 million in a drug run from Panama to Mena, Arkansas. The declaration names other high level federal officials who would be motivated to have the document removed from the file. The Excerpts contain the declaration and an account of an Air Force Special Forces Officer who claims to have been recruited into an assassin ring that was killing loyal military officers. On information and belief members of the assassin ring

were also involved in the attempt upon President Clinton as a candidate in 1992.

The Classified Information and Procedures Act prescribes the manner in which sensitive documents are to be handled. Court thievery is not one of them. Also removed from the federal file subject of 00-16522 were claims for military officers who were victimized by the implementation of sixty-six elements of operational policy against them to silence them. These included certification of federal records to be true and complete when known to be untrue and incomplete. Also crime scenes were altered after some of the military members were murdered.

The Excerpts contain details that must be examined by the Congress in the full scope of relevance to the creation of judges. The two florida women were victims of election crimes because they were not able to get their pleas, with the help of other persons, to Senator Lieberman for assistance. The damage to para-rhinal, diencephalon, hippocampus regions of the brain (areas that cause loss of long term memory), the nervous system, the heart, immune system from patented technology in the hands of the "black operations" personnel are relevant to the national election for president because of the widespread use of the patented technologies against political adversaries.

The general public is unaware of the extreme peril in which are nation has been placed by the creation of judges, certification of records and ballots to be true and complete, when they are untrue, incomplete, uncounted and the back ground political maneuvers cannot possibly be defined without the assistance of the Congress. This Court is likely unaware of the creation of the judges, the theft of the files, the alteration of the Supreme Court documents and the effort taken to enjoin the national election until the fictitious judges could be defined. These efforts were blocked and communications to other nations for evidence on the international drug running referenced in the Bush deposition questions were blocked.

All presidential candidates have a stake in the outcome of the Congress' identification of who created the judges, who altered the records in the Supreme Court of the United States, who 'targeted" the two women in Florida, the field grade officers, and who in the F.B.I. communicated with the election officials in Florida. The repeated block of our efforts to communicate with Senator McCain are relevant to the Florida election cases and this case which you are now considering. They are relevant because the Internet has been used to block communications with Time, US News, Washington Post, Senator McCain and persons who have evidence reasonably likely to assist the court in determining the issues before the court.

I apologetically entered the race for President as a "pip squeak" to gain standing with a celebrity in Iowa and the documents were directed through all one hundred and ninety-two nations so as to be able to raise the issues of international drug running, weapon placement, assassinations, instigation of theaters of operation to sustain profits in the military-industrial complex at the expense of the lives of our own military people and at the expense of true national security. Those documents are in the Excerpts and they are apologetic as to any effort that could be read as "disruptive' of the election process. We maintain hard evidence of violence taken against us in earlier political efforts to raise the same issues and to educate the public as to imperative need to make fundamental changes. The Excerpts and the creation of the judges are understood in the totality of the circumstances.

Efforts to reach Professors Lawrence Tribe and Alan Dershowitz were blocked. We believe that this interference was effectuated by the Bush "team' so as to prevent our developing the issue of their involvement in cover-up acts of treason against the united States by creation of judges.

Because it is likely that this demand for refusal to rule on the case until the Congress can examine the Excerpts and identify the fictitious judges and determine the **legitimacy of the arrest of those**

persons who assigned a co-defendant to be a "ju dge" will reach the court, it is directed through all one hundred and ninety two nations to encourage those nations to turn all evidence they have in their possession to Congressman Bob Barr of Georgia, House Intelligence Committee. (This evidence solicitation now extends to the body of the murdered helicopter pilot , who claims Noriega, Bush, Clinton involvement in international drug running, with an accounting, and the return of all missing women and children who were abused at "parties" by politicians.)

It is surprising how many nations do in fact have an interest in arresting international drug running, weapon placement, abuse of technology. The targeting of United States citizens is an overarching concern as to all nations' citizens because of the use of satellites in some instances. Both targeting of civilians and blockade of the Internet so as to frustrate efforts to communicate among candidates, citizens, and government officials is of major concern to our nation and is relevant to this election under the Declaration of Human Rights and the International Covenant on Civil and Political Rights.

This document is being written under intense electromagnetic fields, five helicopters are present over my residence and we maintain evidence with photographs, the Internet has been blocked, and there

are witnesses of the abuse and interference with the election process before the court. This is a desperate effort to communicate with the court to alert the court to the most chilling document in the Excerpts that clearly states that a coup d'etat has occurred. No loyal American would not want fictitious judges defined, the judicial Branch defined by the Congress, the fiction impeached and the court records of relevant election issues restored. It is better that we cross the bridge now than in an Original Action filed in the Supreme Court of the United States by all one hundred and ninety-two nations in a collegial effort to expose the international drug running, weapon placement and endangerment of the security of all nations.

Recipients will please direct this immediately to the Leon County Circuit Court in Tallahassee, Florida and to editors at Time, US News, Focus, Der Spiegel from whom we have been blocked. The President also needs to receive a copy. The F.B.I. was blocked from receiving recent e-mail communications as were Professors Tribe, Dershowitz and Senators McCain and Lieberman. The Court will please receive this document from any source. We are hopeful that it will reach the court in time for counsel on both sides to receive copies from the Court. The Excerpts must be obtained from the F.B.I. and immediately considered.

I declare under penalty of perjury that the foregoing is true based

on information and belief and as to that based on belief, I believe it to be true.

Signed

Jurisdiction: Article III Section 2, Article III Section 3. This action is to be mandated tothe Congress to try the fictitious Judge Ronald W. Jock and the appointment of a co-defendant of George W. Bush, ex-President George Bush and Attorney General Janet Reno as

"judge" in 00-16522 and the incorporated Eastern District, Sacramento cases 99-CV-2249-EJG, 00-481-LKK-PAN.

Justiciable: This action is to mandate the Electors and the Electoral College not to vote for president until the trial has been held. To vote before the trial is to ratify acts of treason against the United States of America in the appointment of judges, stealing of claims for military families, from a federal court and obstruction of justice, nationally and internationally.

Communication of the creation of judges and obstruction of communication between the candidates for President of the United States was relayed to the Federal Bureau of Investigations. Within hours the Florida vote was "certified" without all ballots counted, while the obstruction of evidence of the creation of the judges and interference with the election by blocking of communications between the candidates and the voters , was further blocked by the defendants from reaching the President of the United States, the relevant courts, whose members could not be excluded from the scope of power and influence of the defendants that appointed the fictitious judges and justices.

That power reached this Court and we have evidence of altered documents, as to dates, so as to delay a consideration of who the fictitious judges and justices are.

The case is justiciable because the Separation of Powers are not hermetically sealed and all Branches have a duty to pay

Full Faith and Allegiance to the Constitution. Because we do not know which of the justices of the Supreme Court are a part of the defendant New World Order cult and who altered the Supreme Court documents, this case must be mandated by the Justices to the Congress under the Necessary and Proper Clause and under the Saenz case provided in the incorporated 00-16522 for purposes of evidence.

The mandate to the Electors must issue so as to determine the scope of Treason against the United States and to assure the plaintiff nations that the laws of the United States of America are what they are purported to be.

Those defendants who have altered election applications and who have created the judges are submitting to an element of operational policy used against United States military personnel and federal personnel who report treason to the unidentified authorities of the United States. They are unidentified because we do not have the scope of the undefined power that has altered the election applications, removed court documents and created judges and justices.

The key documents that were removed focus on the international murders, the identification of an assassin ring that operates out of a sector of the justice department and that has killed loyal military officers. Also, the declaration of a helicopter pilot that he has transported United States public officials to foreign

nations to examine cocaine laboratories and that he heard William Jefferson Clinton, ex-President George Bush in a conversation with Manuel Noriega over the siphoning off of $100 million in drug running funds from Panama to Mena, Arkansas.

Ripeness: The case is ripe because the Ninth Circuit case 00-16522 is being delayed until after the election of, presumable one defendant to this action and 00-16522 to obviate accountability for creation of judges and undefined scope and influence of the defendants on the state and federal courts of our nation and upon the Election officials in Florida

It took only four persons (Secretary of State Harris, three members of the Bush family) to be alerted to the F.B.I. documentation of the created fictitious judges to falsely and prematurely certify the election as final in Florida in violation of the state, national and international laws that vindicate the rights of national and international citizens. These four persons cannot obstruct justice, both national and international, by spoliation and destruction of evidence that would be "boiled out" in a normal election process to expose those who have committed treason against the United States of America.

We continue to be blocked from reaching Senator McCain and other service academy graduates who would not tolerate the creation of judges and removal of military claims from federal

courts. The international evidence on the sinking of oil rigs with murder of witnesses to international drug running was relevant to the election and the deposition questions directed to the Bush defendants in 00-16522. The answers to these questions were presumptively not salutary or they would not have been blocked from reaching the Republican Delegates, the members of the Congress, Senator McCain and others.

Mootness: The case is not moot because the Electors are to be selected December 12 and are to vote for President of the United States December 18, 2000. If they vote without determining the scope of the influence of the creation of judges, justices by the defendants upon the entire Judicial Branch of our nation both state and federal, the vote is for a candidate that has created judges, or tolerated the creation of judges, to obstruct justice both national and international. It is insufficient as a matter of law, both national and international, that the defendants know when they will create the next judges and justices and the plaintiffs do not.

Standing: The documents removed from the federal file in 92-CV-00066 Eastern District Sacramento and subject of the overarching case 00-16522 as to obstruction of evidence of treason from reaching other candidates for President of the United States, Delegates to the Republican Convention in Philadelphia this year, list the persons murdered both national and international and include lawyers. The private bar is not forthcoming in California, under an integrated

bar with the duty to identify the fictitious judges and justices and the power that enable the defendants to create them. Private Attorney General status and standing exist.

Private Attorney General status exists because of the world wide benefit to all people to expose the creation of judges and justices (whose creators have politically influenced other governments for mutual gain and have murdered political adversaries from the famous to the virtually unknown, such that the created judges and justices are now, in this law suit of global significance,) "represented" by the murder of persons who worked to expose the use of high technology against citizens of all nations who report corruption in their governments. (The return of the body of the U.S. military helicopter pilot who was coopted into the New World Order cult operations where he saw first hand the international drug running of Bush, Clinton and Noriega, represents a case of international importance so as to proceed to set the governments on courses of accord so that new industries can thrive, women and children who are murdered and "disappear" in the sub-culture of arrogant disregard for people can be protected and their families timely responded to in mutual concern, and new resolutions to old problems can be sought unfettered by the chains of Nazi-like thinking.)

Standing exists because Colonel Reiman entered the race for President as a "pip squeak" with a celebrity in Iowa. The

documents were channeled through all 192 nations of the world which gives them a stake in the outcome and standing to expose the crimes against the citizens of their nations reflected in the theft of federal court files, the creation of judges and justices by the defendants.

Standing exists because the harm is actual and imminent. It is actual because persons in all nations have been murdered by the defendants who have worked outside of the contemplation of the framers of the Constitution and the Declaration of Human Rights (DHR) and the International Covenant on Civil and Political Rights (ICCPR). It is imminent and individuated because the citizens named as to other nations who were murdered and whose names appear in the file removed from the federal courts have never been litigated, are not issue precluded nor res judicata, and the plaintiffs will be harmed by the destruction of the federal record, creation of the judges and justices, and election of the defendants who created the judges, justices and who had a duty to restore the federal record, (to) identify the judges and justices and did not do so.

Standing exists because the remedy exists. The remedy is to mandate the Congress to hold the trial of the fictitious judges and justices, to define the scope of the power to include or exclude the Electors, the Republican Delegates, the Democratic Delegates, Election Officials and of which states. The Congress must try the fictitious judges and clarify the role of the Electors to be free from

the treason that creation of fictitious judges and justices represents. Treason is clearly identified in the totality of the circumstances of 00-16522 that is incorporated here as fully set forth in writing.

Communications with other loyal and courageous military members and JAG officers have been obstructed by blocking communications to the Vice president, the President, Senator Lieberman, Senator Helms, Senator Reid, Senator Daschle. These officers have a duty to assist the plaintiffs under their full faith and duty to defend the United States of America, our allies, and international law per se as to all law abiding nations. A team of these officers, international and national attorneys is vitally and imminently needed to prevent unstable persons from securing the Oval Office.

The Secret Service is needed to protect the plaintiffs' families andcan be accomplished by the Congress under the Necessary and Proper Clause. We are the first American family to be micro-waved in our "pip squeak" candidacy for the office of President of the United States of America. We are the first American family to seek office with 210 celebrities projected into each nation of our world to advance the interests of children, international law changes, reporting of corruption (see Foreign Policy, Fall 1997) in the vertical hierarchies of all governments under the influence of the "New World Order" cult, and in the interest of international justice.

If the Congress chooses to hear the witnesses from Florida, Virginia, Missouri, California, New York, Georgia, as to micro-waves and other high technology abuse, they will understand why our communications to Congressman Barr, the members of the House Intelligence and House Judiciary Committees have been blocked.

Our rights are secure in the DHR, ICCPR, and in the rational foundations of all political science authors and states-persons of treaties in the compendium of international law, that underscore the supreme right of all individual citizens and individual nations to self defense from any regime that murders them, that creates judges, that destroys evidence for the mutual security, that blocks efforts to secure evidence from all nations, to obstruct receipt by the authorities of all nations and by the House Intelligence Committee. Acts taken to counter obstruction of justice support the lessening of our defense and intelligence chores, the securement of a true national security, and the development of a collegiality among all nations that sets our course to update our international treaties and our common regard for one another that no persons of any nation would fall victims to the indifference to treaties that protect their leaders from micro-waves and other patented technologies in the hands of the Cult, but (rather) which leave (the victims) them outside of the contemplation of compassionate and civilized nations.

PROOF OF SERVICE

The president of the United States was served at 1600 Pennsylvania Avenue, Washington, D.C., for the Electors who have not been chosen for two reasons:

1) He has a duty of full faith and allegiance to the Constitution and has been blocked from receiving communications to him from the petitioners, as have the Vice-President, the First Lady, and Mrs. Gore. We maintain evidence of the alteration of our e-mail communications to them and delay and non delivery that was delayed and not delivered so as to benefit the defendants.

2) He is the Commander in Chief and can order the defense of the Petitioners, both legal and physical, so as to remove the electronic surveillance, interference with communications and high technology "strafing".

These measures taken by the President of the United States in concert with the Congress of the United States will assure the restoration of the Judicial Branch.

The Congress of the United States, all 535 of its members, were served through Congressmen Doolittle, Gary Condit, and Robert Barr, Senators Jesse Helms, Joseph Lieberman, and John McCain on behalf of the Electors who have been chosen to assess the duty of the Electors to vote in the environment contemplated by the framers of the Constitution that all three branches of government

would exist, be defined by the Congress, and be protected by the lawful execution of the laws before identified judges and justices who will not alter documents in the Supreme Court of the United States. The class that seeks certification hales from all fifty states. The Congress has the means to identify the scope of the new World Order cult with evidence directed to it from each of the 192 nations.

Because of the regular and repeated interference with the mail, e-mail, private carrier deliveries of the petitioners to the defendants, they are best served through the President and the Congress who have the duty under the full faith and allegiance to the Constitution to identify the fictitious judges, justices and the scope of this power to create them that lies exterior to the contemplation of the framers and which is well circumscribed by the traditional notions of Treason recognized by civilized nations that appreciate the plight of petitioning undefined judiciaries.

I declare under penalty of perjury that the foregoing is true and correct.

1) This filing is under 18 U.S.C. 4 as required by federal law. The plaintiff is reporting to the court the theft of the Motion to Activate the case which was filed on October 10, 1997. The corrected proof of service is enclosed.

2) Plaintiff is requesting a federal grand jury investigation into the court theft of the file from the Ninth Circuit Court of Appeals in July 1993. Many persons have been denied justice thereby.

The Reimans contend that the thefts are reprisals for having had proffered interrogatories to the United States Congress in 1988 and 1989 that listed federal rogue operatives' involvement with Medillin Cartel drug runners. Since the thefts, the names of the same persons involved in rogue drug running have surfaced in declarations of others which were provided to the Reimans.

NOTICE OF ARREST OF THE NINTH CIRCUIT COURT OF APPEALS AND AUTOMATIC STAY OF THIS APPEAL, 00-16522

ORIGINAL WITH STAMP
OF COURT CLERK

I

Until the Congress of the United States of America impeaches the fictitious judge Ronald W. jock whose orders, and creation as extra-judicial acts, were submitted to the Supreme Court of the United States and dignified by the Court as though he did exist, and identifies the power behind the Bush defendants that permitted them to name a co-defendant, served with a summons and complaint, as "judge," to silence the Attorney general of the United States, and the defendants C.I.A., F.B.I. who have not answered and have countenanced the creation of the judges.

II

Any Justice, Judge, or magistrate could be under the influence of the fictitious judge and those who created him. The time of his next appearance to defend the powerful defendants is unpredictable. The Judicial Branch is therefore "closed" until such time as the impeachment is completed and the courts restored to only duly elected and appointed justices, judges and magistrates fully

identified to the People of the United States of America. The evidence of his "existence" and of the appearance of the Bush defendants by proxy in the case that scrutinizes their own behavior, is in the refused Excerpts presented to the Court in the First Notice of Arrest. The refusal to accept and to enter into the public record the evidence against the courts is cause for further charges of treason. These Excerpts must be delivered to the People of the United States of America, its Congress, and its legislatures and governors as demanded as a matter of law. No argument of the Bush defendants can be subsumed under the National Security because they occupy no federal posts and they are not empowered to create judges, to coerce them, nor to countenance their creation, nor to participate in court document thievery, nor to block relevant campaign issues and evidence of treason from reaching the Republican delegates, and the other presidential candidates. Heinous events such as these gave rise to our own protests as a nation and set into the course of history our statements in our own great statutes and Constitution that such would never be tolerated by the People whose reserved power is in excess of that taken by these defendants and by this fiction.

III

These extrajudicial acts, unsupported by any law of civilization, are at the expense of our nation and duly authorized public servants who cannot pay full faith and credit to their oaths of office and

their commission to the People of the highest standards of integrity and service without the creation and coercion of judges, the theft of evidence against the very power that creates and coerces the judges.

IV

The framers of our Constitution did not envision the creation of a fictitious judge nor the appointment of a co-defendant of a powerful politician to be the "judge," nor theft of documents with claims for the people and military families whose officers are commissioned to defend the United States of America when the politicians and those who fear them in the Executive Branch of our government, in its intelligence and investigative agencies, will not defend the United States of America, but rather prefer to impugn her laws and to invade her courts. The proof of the fear is in the Excerpts provided to the Ninth Circuit Court of...(only first page exhibited to keep cost down. This is the case that is consolidated as a matter of law because the scope of the fictions cannot be arbitrarily said not to enter each of the consolidated actions. The language here is strong against the bush defendants; therefore, the appeal fee paid specifically for this case to assure the charges against the Bush defendants would survive, was misdirected to the other consolidated case, likely by the Bushes to prevent the Congress, during the impeachment of the fictions and those who created them, from reading the Excerpts and pursuing the dead body of the helicopter

pilot that declared that Bush, Noriega and Clinton were involved in international drug running. See the exhibited receipt with 00-16522 on the receipt.)

The next document is proof that those parties who changed the dates to avoid production of the records in a timely manner to permit the Congress to intervene with the Electors to halt the election for president until the scope of undue influence of the Bushes on the Judiciary could be determined, over looked the "buried" document and failed to change it as well. This evidence is central to the return of the body of the helicopter pilot and the missing women and children who were "buried" while political process and access thereto on their behalf was stamped CLOSED to all candidates except those approved by the New World Order cult.

(This document was certified by a Third District Court of Appeals Clerk as altered from the true Original that requested production of the entire record to support the appeal. The murdered helicopter pilot that declared that Bush, Clinton, Noriega were all involved in international cocaine trafficking from Panama to Mena, Arkansas [Clinton coerced into the operation upon proof], must be returned to the United States, funded by the NSA, with ana accounting. The class seeking certification, the families of the dead and missing

women and children who were luridly abused at alleged CIA facilities by the Bush defendants, and the United States public are entitled as a matter of law, to restore the courts, to restore the Internet communications with authorities, to pay the military claims, to "rope in" the technology used against the Reimans and the class. The "pip squeak" candidacy for President to assure that the courts would be restored and the women returned now has great merit. Congressman Condit's office was to deliver the service of process on the Congress to enjoin the national electors until the scope of the fictitious judges could be determined to exclude Florida and California courts. It is an issue for the Congress whether a new election can be held on the seventh day of any upcoming month. to support the "platform of Mr. Robert Redford and Colonel Reiman, should their now missing campaign manager and the dead body of the pilot be produced. It is not known how many, if any, communications were permitted by the Bush defendants to reach Mr. Redford through the campaign manager.)

This is relevant to the impeachment of the fictitious judges because the certified mail, see exhibited green card, to President Clinton, contained the declaration of the murdered helicopter pilot. One woman is willing to testify that double agents worked the White House situation room. Chief Justice George certified, through his clerk, to the Supreme Court of the United States that no alterations had occurred in this document. The false certification, and the missing declaration of the murdered helicopter pilot are relevant to returning the body of the pilot and the women who claim to be abused at C.I.A. "Parties" with Members of the Congress in

attendance. The abuse of children and the women was international. Reiman and Redford, all Americans have the right to run for the presidency together to restore the dignity of our nation and to protect our women, children, and our defense facilities such as the Internet and its dependent satellites. The Supreme Court has the duty under the treaties (DHR, ICCPR, under the oath of office to defend the United States of America to defend our courts and to produce all evidence of the creation of the fictitious judges and the false certifications from the Supreme Court of California, the Attorney General of California to the Congress and to the Strasbourg Civil Rights Court, the Hague to gather evidence of the international abuse of women, children and of our nation for the Congress.

APPENDIX O

DECLARATION

I Dois Gene Tatum, declare:

I was a helicopter pilot for the United States Army from 1982 to 1986, during which time I flew missions in Central America and also from Ft. Campbell, Kentucky.

From 1986 to 1992 I was an agent for the Central Intelligence Agency, operating under deep-cover assignment.

During this time I witnessed activities involving high-level U.S. personnel that I felt were unlawful and I reported these activities to my superiors in the U.S. Army and to my handlers in the Central Intelligence Agency, to the National Security Council, and to various individuals, including William Barr, Oliver North, George Bush.

Among these activities were rampant drug smuggling into the United States involving people in control of the Central Intelligence Agency, the Drug Enforcement Administration, the armed forces of the United States, among others.

I have documented some of these activities on military flight plans, showing as passengers on certain flights, the following: William Barr; Buddy Young; Felix Rodriquez; Oliver North; Joe Fernandez; Manuel Noriega; and Mike Harari. (Israeli Mossad)

I have visited cocaine laboratories with the above people, who were inspecting the drug smuggling operations in Central America.

I have documented on some of these military flight plans the nature of the cargo being carried in white coolers that were fraudulently

marked as "medical supplies," which I accidentally discovered to be cocaine.

During one flight and related meeting, I was present while there were discussions as to where drug money was being siphoned on the Panama to Arkansas run. (This gave rise to gathering evidence of Clinton being the Robin Hood of Arkansas.) Present at this meeting were Manuel Noriega; William Barr (associated with CIA proprietary Southern Air Transport and later attorney general of the United States); Joe Fernandez; Mike Harari; General Gustavo Alverez. Participating in this meeting via **satellite (bold added to emphasize the "envelope" defendants who are the deep pockets to pay the $2 billion in military family claims removed from the Eastern District and "covered" by the Ninth Circuit)** telephone was Vice President George bush (sic),

Oliver North, and William Jefferson Clinton, then Governor of Arkansas. (Evidence to be developed with the Senate: candidate Clinton survived the effort to kill him in San Francisco in 1992 by wisely aligning with non-Mossad interests in Israel, Rabin, etc.)

I had reported these illegal operations to my superiors, including William Barr (opposing counsel in Las Vegas to the class of military families, many now missing, to Reiman and the class with prospective counsel, Belli); Oliver North; George Bush; Felix Rodriquez; Joe Fernandez; Don Gregg; Dewey Clarridge (named in Col. Reiman's interrogatories to the Congress in 1989).

After I refused to perform a mission that I felt were beyond my willingness to execute, I notified my handlers that I wanted out of the operation, which at that time was known as Operation Pegasus. Their response was to warn me that no one leaves the operation. (The blocked satellite communications with the National Security Agency directed by Col. Reiman were to secure funding to go after Tatum's body in Guatemala with an accounting. All America will participate in this operation to return him by voting for Redford and Reiman on any upcoming month as set by the Congress. Redford communications have been blocked and the campaign manager can't be located. We will run with any military personnel, celebrities and in effect with all Americans to make our nation accountable to the people of all law abiding nations. If they kill us, many will take our places in a long line to restore our Liberty.)

I declare under penalty of perjury that the above facts are true and correct to the best of my knowledge and belief. Executed this___15th inserted by Tatum's hand_____day of August 1996 in the County of Hillsborough, State of Florida.

DECLARATION

I, Dois Gene Tamm, declare:

I was a helicopter pilot for the United States Army from 1982 to 1986, during which time I flew missions in Central America and also from Ft Campbell, Kennucky.

From 1986 to 1992 I was an agent for the Central Intelligence Agency, operating under a deep-cover assignment.

During this time I witnessed activities involving high-level U.S. personnel that I felt were unlawful, and I reported these activities to my superiors in the U.S. Army and to my handlers in the Centra Intelligence Agency, to the National Security Council, and to various individuals, including William Barr, Oliver North, George Bush.

Among these activities were rampant drug smuggling into the United States involving people in control of the Central Intelligence Agency, the Drug Enforcement Administration, the armed forces o the United States, among others.

I have documented some of these activities on military flight plans, showing as passengers on certain flights, the following: William Barr; Buddy Young; Felix Rodriguez; Oliver North; Joe Fernandez Manuel Noriega, and Mike Harari.

I have visited cocaine laboratories with the above people, who were inspecting the drug smuggling operations in Central America.

I have documented on some of these military flight plans the nature of the cargo being carried in white coolers that were fraudulently marked as "medical supplies," which I accidentally discovered to be cocaine.

During one flight and related meeting, I was present while there were discussions as to where drug money was being siphoned on the Panama to Arkansas run. Present at this meeting were Manuel Noriega; William Barr (associated with CIA proprietary Southern Air Transport and later attorney general of the United States); Joe Fernandez; Mike Harari; General Gustavo Alverez. Participating in this meeting via satellite telephone was Vice President George bush, Oliver North, and William Jefferson Clinton, then governor of Arkansas.

I had reported these illegal operations to my superiors, including William Barr; Oliver North; George Bush; Felix Rodriguez; Joe Fernandez; Don Gregg; Dewey Clarridge.

After I refused to perform a mission that I felt were beyond my willingness to execute, I notified my handlers that I wanted out of the operation, which at that time was known as Operation Pegasus. Their response was to warn me that no one leaves the operation.

I declare under penalty of perjury that the above facts are true and correct to the best of my knowledge and belief. Executed this 15th day of August 1996 in the County of Hillsborough, State of Florida.

I received the following 2 pp plus other documents from bill Hamilton today. Prior to knowing of the existence of this document/ information, I have independently acquired information that:

a) There is an extremist intelligence related assassination cell concealed within the Penatagon/DOD which murders not enemy agents, but rather loyal U.S. Government officers who threaten to expose illegal covert operations by their own renegade superiors.

b) A covert, professional intelligence operation was planned and implemented within the U.S. military in the early-mid-1980's to infiltrate the U.S. Dept of Justice for the express purpose of sabotaging the rule of law and the criminal Justice system whenever

it threatened this "lunatic fringe" intelligence network.

I first crossed paths with this network in the mid-late 1980's while investigating the "Gander Crash" of 12 dec 85, which resulted in the deaths of 248 U.S. soldiers and 8 civilian crew members. This crash threatened to expose "Iran Contra" one full year before it was officially brought to light (Nov 1986).

I was specifically cautioned that if I successfully exposed the Gander cover-up I would be murdered by the assassination network. This warning was given to me by one of the U.S. military's highest ranking and highly respected General officers.

I have again crossed paths with this network during my investigation of the 22 Jan 1991 murder of USMC Col Jimmy Sabow at USMC Air Station, El Toro, Ca.

These covert operations, besides being obviously illegal, are:

1- A gross violation of the Constitutional process.

2-Acts of treason against the U.S.A.

3-The equivalent of, in fact, a military/secret police coup d'etat in the USA.

If you think this unbelievable, just remember events of the past, such as U.S. military intelligence infiltration of U.S. political parties resulting in their exposure after the 1968 Democratic Party Convention in Chicago, and other subsequent events too numerous to mention.

Finally, while serving as a USAF OSI Special Agent, I was personally approached to be a member of a secret assassination sub-culture within the U.S. Government intelligence community. The code-name, within the military, for this assassination underground was the Z-D program, Z-D being the abbreviation for "Zeta-Diogenes". This operation arose out of the Bay of Pigs invasion of Cuba.

APPENDIX Q

See actual document for the addressees with likely evidence of the international drug running that would assist the political process and the people of the United States to regain our own control over international "black operations" inclusive of murder of our own loyal military and abuse of women and children. The message is to Senator Daschle and to the National Security Agency.

The Senate must demand media time to determine the issues and to reset a new election on the seventh day of any upcoming month. Confirmation of the coup will be had with denial of television time. With return of the claims, brokering of them with the missing campaign manager, the time can be purchased.

SWEDISH CONTACTS: ERRORS CORRECTED. ATTEMPTED TO SEND, BLOCKED. UNITED KINGDOM CONTACTS

PLEASE OBTAIN THE DAILY TELEGRAPH, SATURDAY, JUNE 9, 2001, FOR COMPLETE LIST OF ALL MEMBERS OF THE PARLIAMENT. PLEASE DIRECT THIS COMMUNICATION TO EACH OF THEM. WE NEED ASSISTANCE IN GETTING THROUGH TO ATTORNEYS IN THE UNITED KINGDOM SO AS TO SECURE BADLY NEEDED MEDICAL TREATMENT FOR INJURIES DIRECTLY CAUSED BY DIRECTED ENERGY WEAPONS FOR HAVING HAD ENTERED THE RACE FOR PRESIDENT ON A PLATFORM OF EXPOSING INTERNATIONAL HEROIN, COCAINE TRAFFICKING, MURDER OF A UNITED KINGDOM WOMAN AND MURDER OF OUR KEY WITNESS TO BUSH, CLINTON, AND NORIEGA INVOLVEMENT IN INTERNATIONAL DRUG RUNNING. CLINTON WAS UNAWARE OF THE FULL SCOPE AND WAS ABUSED. EFFORTS TO OFFSET HIS IMPEACHMENT WITH FACTS WERE ALSO BLOCKED. WE NEED COUNSEL AND NATIONAL SPONSORS IN THE HEAVILY POLITICIZED INTERNATIONAL COURT OF JUSTICE TO BRING OUT POLITICAL DECEPTION AND HIGH TECHNOLOGY ABUSE OF POLITICAL ADVERSARIES. WE ARE WALKING EVIDENCE.

BESLUT 12:14 PM 5 JULY 2001, PST

Senator Daschle:

The earlier communications to you were blocked and to the NSA. We seek to have identified the creation of judges, both state and federal, as to the full scope of Bush family involvement. Litigation named them as defendants and I entered the race for president in Iowa as noted below in a general communication to a wide array of readers who can assist in bringing evidence of election crimes, treason, and murder of our key witness to the Congress to impeach the power that created the judges. My wife and I have been victimized by our adversaries with directed energy weapons that I can prove as a flight surgeon, graduate of the Air War College, and with experts from my prior squadron as well as from Los Alamos. I have no clue what you have received. You are stepping into a stream of communications that are extremely important. Please assist in delivering evidence to the Congress for impeachment and to assure survival of my wife, me, and other military and civilian witnesses so we can act appropriately in defense of our nation and not lose an irreplaceable window of opportunity in which to fight. The NSA, and recipients in other nations are requested to assist in delivering this message to you, if necessary, by hand.

THE APPLICATION FOR WRIT OF CERTIORARI WAS REMOVED FROM THE REIMAN VEHICLE. THIS ARGUMENT IS SUBMITTED TO THE SUPREME COURT OF THE UNITED STATES WITH THE E-MAIL VERSION

ATTACHED AS EVIDENCE. THE APPLICATION IS FILED UNDER THE SEAMAN'S ACT TO RESTORE COLONEL REIMAN'S MILITARY CAREER. PRODUCTION OF THE SUPPRESSED MEMO OF THE COERCED MAJOR MARTHA ANNE MC KNIGHT IS DEMANDED.

PRODUCTION OF THE F.B.I. SECRET ON THE REIMANS THAT WAS INSERTED, IN PART, INTO A CALIFORNIA MEDICAL LICENSE DECISION WHEN IT WAS NOT IN EVIDENCE IS DEMANDED.

PRODUCTION OF THE IDENTIFICATION OF THE FICTITIOUS JUDGES IS DEMANDED. PRODUCTION OF THE MILITARY CLAIMS AND DECLARATIONS OF COLONEL REIMAN'S EXCELLENCE AS A PHYSICIAN AND MILITARY OFFICER IN THE CONVERTED 10-10-97 FILE IS DEMANDED TO IDENTIFY THE THIEVES.

PROOF IS OFFERED TO THE CONGRESS WITH THE DECLARATION OF THE HELICOPTER PILOT OF BUSH, CLINTON, AND NORIEGA INVOLVEMENT IN INTERNATIONAL DRUG RUNNING.

ARGUMENT IN SUPPORT OF MILITARY JAGS ASSISTING IN THE IMPEACHMENT OF THE FICTITIOUS JUDGES, IN GRANTING THE WRITS OF CERTIORARI AND MANDAMUS TO THE CONGRESS TO IMPEACH those justices, and or their clerks of the Supreme Court who altered documents and prevented

the Electors from being enjoined on December 11, 2000 in favor of "processing" Bush v. Gore.

1) A list of murdered persons (that spans the interval of increased heroin and cocaine trafficking from South East Asia into many nations to the interval of Panama drug running into many nations),and the military and loyal agency personnel who were also murdered will be provided from multiple sources to key Senators. Nations are invited to submit evidence and to intervene in the interest of international justice. Bogus evidence will be offset by the general volume that confirms international conflict instigated for drug profits, weapon transference, and subjugation of rising leaders with alternative solutions.

2) Threshold issues are identification of the fictitious judge Ronald W. Jock, return of the body of Dois Gene Tatum with evidence from Guatemala, and payment of the stolen and seized military claims.

3) Depositions will be taken without Answers because of the creation of the judges preempting the hesitation for Answers. This is imperative to offset further spoliation of evidence, murder of witnesses and intimidation with high technology and traditional violence.

4) Military members murdered for reporting or for gathering evidence as to the above issues are acts of treason. The enemy aided is the international drug running, weapon- purchase-from-

drug-laundering, weapon- placement, assassin- training and placement of them to murder our own people and others, court-infiltrating, political- infiltrating cartel.

5) The mission is not beyond our reach because we can deploy two hundred JAGS in each state to gather evidence from all prior and current military and agency personnel.

6) The status quo is unacceptable because the rules of engagement, the rules of the courts, the rules of who it is will be murdered next, or will turn up "missing" are known only to the upper ranks of the cartel.

7) The cartel cannot murder the fictitious judge Ronald W. Jock; therefore, we have the duty to impeach Jock in the Congress and those who created him. This will get the military claims paid, the rules of engagement defined, and the new "rules" of the seated coup declared internationally so we will know which nations we can turn to for evidence against the coup members and restoration of our own national sovereignty.

THESE STEPS MUST BE TAKEN AS LONG AS THE ARROGANCE PERSISTS THAT BLOCKED COMMUNICATIONS WITH THE CONGRESS, WITH THE NSA, AND WITH THE COURTS IN BANK. ALL JUDGES AND JUSTICES MUST BE ADVISED OF THE ALTERED COURT RECORDS, STOLEN FILES AND CLAIMS AND THE MURDER OF OUR CHIEF WITNESS TO BUSH, CLINTON

AND NORIEGA DRUG RUNNING.

IF VIET NAM AND THE ASSASSINATION OF JFK WERE TO ASSURE, AS MANY CONFIRM, THE FLOW OF HEROIN INTO THE UNITED STATES OF AMERICA, THEN THE FACTS OF THE MURDER OF TATUM WILL ALSO CONFIRM THE GENERAL PATTERN BECAUSE THE HEROIN AND COCAINE TRAFFICKING THEN ARE ONE PILLAR OF THE BRIDGE IN HISTORY AND THE OTHER PILLAR IS THE FLOW FROM CENTRAL AMERICA. WE OWE ONE ANOTHER MORE AND WE CANNOT BECOME DISPIRITED. FOLLOW ME PLEASE TO DETERMINE THE TRUTH AND TO INSTATE FUNCTIONAL LEADERSHIP IN OUR NATION. LONG HAVE THE BLACK OPERATIONS POWER BROKERS BEEN SUCCESSFUL IN CREATING PLAUSIBLE DENIABILITY AND TRUNCATING THE CONNECTIONS BETWEEN AGENCY BLACK OPERATIONS INDUCTEES (CONSIDER HUSSEIN, NORIEGA, MILOSEVIC) AND THE PROMINENT POWER BROKERS OF OUR NATION.

NO CAUSE THAT PLACES CAPITALISM, NOR EVEN COMPASSIONATE CAPITALISM, ABOVE OTHER ALTERNATIVES, CAN BE JUSTIFIED WHEN THE COST HAS BEEN THE MURDER OF SO MANY AND THE DELIBERATE

LOSS OF ALL MILITARY LIVES SINCE WORLD WAR II TO SUPPORT HEROIN AND COCAINE TRAFFICKING.

THE COMPASSIONATE CAPITALISM THAT WE MUST ENDORSE HAS VIABLE OPTIONS IN THE IOWA CAUCUS PLATFORM. EVEN IF REDFORD WILL NOT NOW COOPERATE, OR HAS BEEN DISSUADED WITH INCOMPLETE INFORMATION, OTHERS WILL ASSIST AND MILITARY MEMBERS CAN ASSIST IN ASSURING MILITARY EXPERTISE IN THE YEARS THAT LIE AHEAD IN THE CABINET.

YOUR ASSISTANCE AS JAGS AT THESE EARLY STEPS IS IMPERATIVE AND RESTS UPON THE SAME PREMISE: NO JUDGE CAN ARISE APART FROM MERIT, AND NO CANDIDATE CAN SECURE THE OFFICE ARRESTED, WITH AN UNKNOWN POWER ADMINISTERING THE OATH IN THE WAKE OF AN UNDEFINED POWER THAT HAS CREATED JUDGES AND ALTERED DOCUMENTS IN THE SUPREME COURT OF THE UNITED STATES.

THE MURDER OF THE KEY WITNESS CANNOT BE REPEATED. THE FOCUS IS THUS UPON THE IMPEACHMENT AND UPON THE RETURN OF HIS BODY

AND OTHERS MURDERED OR WHO HAVE TURNED UP "MISSING".

Legal argument for the Supreme Court, Strasbourg, International Court of Justice

VIOLATION OF THE FIRST AMENDMENT OF THE UNITED STATES CONSTITUTION

Creation of judges in this case is a violation of the First Amendment right to petition the government for redress. Knowledge of who it is that one petitions is imperative to respect the right. The scope of the fictitious judges cannot be said to exclude those who created them. Those who created them thus become the persons who are petitioned. They become the "government".

VIOLATION OF THE FOURTH AMENDMENT OF THE UNITED STATES CONSTITUTION

1) Seizure of the 20-20-97 file from the federal court, subject of the litigation for fraud for which state court litigation was stayed, is an extra-judicial act, that violates the Fourth Amendment and gives rise to a cause of action FOR TREASON. The file has never been produced and is not barred by res judicata nor by issue preclusion. Because it was hidden from the courts, it was not entertained by them. Federal Rules of Procedure compel bringing these causes or they are lost. THE STATUTE OF LIMITATIONS FOR MURDER AND FOR TREASON IS UNLIMITED.

A) The application for Writ of Certiorari and Mandamus to produce the seized federal and state claims for the military, to identify the fictions and those who created them, including the acts of suppression of federal records in the Supreme Court of the United States is "cert worthy".

B) National security demands impeachment of the fictitious judges and those who acted with them to abuse international citizens, our own people and our military.

C) Petitioners gained standing by directing entrance documents to the Iowa Caucus, to the International Human Rights Committee, and through celebrities, other candidates, and nations.

2) Until the file is returned, with the suppressed Mc Knight memo, litigation, both state and federal cannot proceed. Without identification of the scope of the fictitious judges to exclude the current "judges" no impartial forum of the "government" which can be petitioned is identified. The seizure of the Mc Knight memo is also a violation of the Fourth Amendment. Mc Knight admits her guilt in the memo she wrote that was referenced as attached to the military based accusation against Colonel Reiman's California Medical License. The memo was not attached. She confessed to the Board that removed her from the Air Force that she had been coerced to falsely charge Colonel Reiman as impaired for reporting waste, fraud and abuse issues. Those issues included the murder of the United kingdom citizen, the international drug running with

the same persons involved that were identified by Reiman to the Congress and who were identified in the murdered

Tatum's declaration. It was fitting for Reiman to act to defend the nation by running for president on these precise issues with innovations to secure national defense when the courts participated in the destruction of evidence.

3) It is insufficient as a matter of the Constitution that the "government" knows that it is exterior to the power that CREATED THE JUDGES WHILE THE PETITIONER DOES NOT KNOW THE SCOPE OF THE POWER. THE PETITIONER THUS DOES NOT KNOW THE MEANS TO OFFSET THE PRESUMPTION THAT THE JUDGES ARE WHOM THEY REPRESENT THEMSELVES TO BE.

4) Until the judges and the scope of the power that creates them is defined by the Congress, by the acts of impeachment of the fictitious judges and those who created them, the courts must step aside as "arrested" so as to permit the fictions to be excluded from among the judiciary and from the government.

5) Honest members of the judiciary could not preclude other justices from the exclusion of the Supreme Court from entertaining the enjoinment of the Electors on **December 11, 2000 so as to permit the scope of undue influence upon the judiciary by the Bushes to be determined. Both ex-President George bush and George**

W. Bush were served with the summons and complaint.

6) Neither protested a co-defendant made "judge," the theft of the military claims, nor the creation of Judge Ronald W. Jock. Judge Jock denied a criminal investigation into the evidence supplied by the murdered United States military pilot in Guatemala.

7) Ex-President George bush was notified by Ross Perot, who viewed the same film of innovations the Reimans shared with general Powell and certain senators, that Reiman was suing him in California in 1990. Pre-positioning of weapons and biological hazards endangered our troops for sheer political gain at the cost of national security and the sot of limiting international drug running and terrorism.

8) The medical accusation was launched shortly thereafter and the Mc Knight memo was removed.

9) Doctors were removed from the loop.

10) A prior aide of Senator Wilson, Senate Armed Forces Committee, to which committee

members Reiman appealed for assistance, was made the Executive Director of the California Medical Board.

11) He, the Bushes, the fictitious judges, **and those who murdered the key witness in Guatemala,** remain the main defendants in stayed federal litigation that must be stayed **until the Bush created and appointed judges are removed with George W. Bush if necessary.**

12) **He remains arrested for creating a judge and tolerating the theft of military claims and a federal court file with his father.**
13) They must, as a matter of law, submit to the Congress' authority to aide the impeachment of the fictions and the return of Tatum with evidence of who murdered him, return of the stolen federal file, and an accounting for the theft of the notice to the members of the Congress that the election would have to be enjoined as a matter of law until the scope of the undue influence upon the state and federal judiciary, including Florida courts and the Supreme Court of the United States could be determined.
14) Congress, must, to the member, receive and read the evidence, impeach the fictions and cooperate with the international community in returning Tatum to the United States, and the gifts to all nations contained in the federal file (delivered) to them.
15) The education of future leaders to avoid international anti-humanitarian technology transference to avoid preying upon political adversaries with the technology begins with international cooperation in law and education.
16) The creation of judges whenever they are needed by the powerful is a seizure of our entire Judicial Branch of our federal government. **The scope of the power that creates both state and federal judges is indistinguishable. The power itself is answerable to the Congress.** State creations are under the

jurisdiction of the Congress because they have aided and abetted the creation of federal judges and the theft of federal files and evidence of a coup d'etat against the United States.

17) **The coup is strong language supported by the evidence of the statement of an A.F.O.S.I. agent**, murder of loyal military officers and enlisted, and the most recent murder of **a military helicopter pilot in Guatemala** that confirms violation of national and international law.

18) The **blockade of service of process upon the United States Congress to enjoin the Electors on December 11, 2000 confirms the coup d'etat.**

19) **The seizure of our nation and its electoral process demands the intervention of the Congress, the N.S.A, the C.I.A., the F.B.I., the N.R.O. , and the return of the body of the helicopter pilot from Guatemala with the evidence of who murdered him and why.**

20) **The declaration of the pilot and supportive evidence was excluded by the courts subject of this litigation, the power of the fictitious judges, and the applications for writs of certiorari and mandamus.**

21) **We must view the claimed coup d'etat, de minimis, as a violation of the Fourth Amendment rights of those candidates who ran for the presidency to protect our nation and its military from the theft of the military claims in the 10-10-97 file.**

22) The brokering of the claims for $300 million to purchase television time to alert the nation to the peril of the creation of judges and blocked communications with the Florida courts, **our campaign manager,** celebrities, and other candidates lends undeniable credibility to the measure of determination to remain undetected as to those persons who created the judges.

VIOLATION OF THE FIFTH AMENDMENT

Theft of military claims from the federal court in Sacramento, California violates due process, both procedural and substantive.

VIOLATION OF THE FOURTEENTH AMENDMENT

creation of fictitious judges, alteration of state court orders, theft of entire files (one naming the politicians involved in the international drug running), violates the federally protected rights to preservation of evidence, petitioning the legitimate government, safe guarding the lives of parties and witnesses. **Lives are lost in the interim of identification of the legitimate courts both state, federal, and appellate, and Supreme Court of the United States.** Alteration of records occurred at all levels. Due diligence is impossible when the forums are not excluded from the power that created the fictitious judges. Were they defined, the petitioners could seek injunctive relief from the high technology directed energy weapons, and could have intervened to halt international **murders of parties and key witnesses.**

VIOLATION OF THE EIGHTH AMENDMENT

Cruel and unusual punishment has been inflicted and has included lasers and other exotic weapons. Hard evidence is maintained of traditional violence. Identification of political targets requires the assistance of the international community.

VIOLATION OF THE LIBERTY CLAUSE OF THE FOURTEENTH AMENDMENT

Fundamental rights to defend our nation by running for public office when the courts are closed by political adversaries inhere in the Liberty Clause of the Fourteenth Amendment. These rights **include the right to arrest** under the authority of (citizens for on going felonies with submission of the arrested to the Congress where the Executive Branch has involved itself with the creation of judges and will not prosecute itself) of the commission as an officer in the United States military (commissioned) by the Senate. The rights is buttressed by the duty of those arrested, who took an oath to defend the Constitution, to submit to the authority of the People, to the United States Congress. Those powers delegated by the Congress to agencies can be withdrawn as an open proposition of law addressed by Chada.

All levels of courts were arrested who created or who condoned the creation of the fictitious judges and the suppression of service of process to the Congress as to the enjoinment of the Electors until such time as the Congress could redefine the federal judiciary and the invasion of the state courts by the power that creates judges

for political gain and to advance the coup against the United States of America. None of the arrested persons submitted to the F.B.I. whose "Secret" on the petitioners was inserted wrongfully and illegally into a state medical license reprisal taking for supporting the public policy against government international drug running. THIS SUPREME COURT THUS IS DEMANDED TO HUMBLY STEP ASIDE AND TO SUBMIT TO THE AUTHORITY OF THE CONGRESS. THE NECESSARY AND PROPER REMEDY LIES WITH THE CONGRESS AND IN THE IMPEACHMENT OF THE FICTITIOUS JUDGES, THOSE WHO CREATED THEM, AND THOSE WHO MURDERED THE KEY WITNESS TO INTERNATIONAL DRUG RUNNING (OF BUSH. CLINTON, NORIEGA), IN GUATEMALA. THE PETITIONER HAS THE RIGHT INHERENT IN THE LIBERTY CLAUSE, TO DEFEND THIS NATION AND THE LAW ABIDING INTERNATIONAL COMMUNITY FROM INTERNATIONAL DRUG RUNNING, MURDER, WEAPON AND TECHNOLOGY TRANSFERS. MURDER OF A UNITED KINGDOM CITIZEN ON PETITIONER'S WATCH UNDER INTERNATIONAL DRUG RUNNING CONDITIONS IS SUFFICIENT TO GAIN STANDING IN STRASBOURG TO ENHANCE UNITED STATES SOVEREIGNTY WITH ADDITIONAL EVIDENCE.

THE CONGRESS MUST EXERCISE ITS POWER OF FOREIGN

AFFAIRS TO HAND THE EVIDENCE OF THE CREATION OF THE JUDGES, THE THEFT OF MILITARY CLAIMS, THE MURDER OF PERSONS WHO ACTED IN DEFENSE OF NATIONAL AND INTERNATIONAL LAW, THE MURDER OF PERSONS IN FOREIGN LANDS TO THE INTERNATIONAL TRIBUNALS AT STRASBOURG AND THE HAGUE.

We claim a fundamental right that inheres in the liberty clause to have our own Congress sponsor us in the international court of justice so as to obtain the total body of evidence needed as to treasonous transfer of technologies to re-instate our sovereignty.

The power of supplication (to the international courts and for the intervention of governments with evidence against the international drug running, weapon and technology transferences) is pegged also to the non doctrine of state and non sovereign immunity acts of those who created judges in our nation and who destroyed evidence and lives as to both treason and international crimes to institute theaters of operations to sustain profits in technology, weapons, narcotics, gas and oil.(ALL NATIONS CAN INTERVENE AND MUST RECOGNIZE THAT THE ACTS OF FICTITIOUS JUDGES AND THOSE WHO CREATED THEM TO COVER-UP INTERNATIONAL CRIMES ARE NOT ACTS THAT BAR THE INTERVENTION BECAUSE THEY ARE NOT THE ACTS

OF THE SOVEREIGN UNITED STATES OF AMERICA NOR ARE THEY PROTECTED BY THE DOCTRINE OF STATE. Our nation does not condone international drug running, weapon and technology transference nor murder in Guatemala or any other place to cover-up treason.)

Until the new rules of court of the seated coup are announced, we claim the right to prosecute (with the assent of the people, our Congress) those who created the judges and who disfranchised the public. (We will prosecute) in the courts to be redefined with the Congress (that must stand to the member and prosecute all who created the judges and altered documents in the Supreme Court of the United States to take the election from the people.) The military officers have the inherent right to defend the nation with evidence and to assist in the prosecution, including prosecutors, who created or tolerated the creation of the judges.

They cannot hide behind their offices until the Congress defines the scope of the fictions and the power that created to exclude the prosecutors and George W. Bush.

THE SUPPLICATION IS THUS ALSO TO ALL OF OUR ALLIES AND TO THOSE WHO COMPORT WITH INTERNATIONAL LAW SHOULD OUR OWN CONGRESS NOT SPONSOR THE SOVEREIGN UNITED STATES OF AMERICA AND THESE

PETITIONERS.

PETITONERS FINALLY, INDIVIDUALLY, CLAIM THE RIGHT INHERENT IN THE LIBERTY CLAUSE TO PROSECUTE THE FICTITIOUS JUDGES, THOSE WHO CREATED THEM, AND THOSE PERSONS WHO DISFRANCHISED OUR NATION ON DECEMBER 11, 2000.

The fundamental right to run for president to prrotect our own military from future abuse further inheres in the liberty Clause. Most certainly a platform that would assure military representation in the Cabinet to offset the political loss of military lives incurred for purposes countervailing to national security is unassailable. (Currently retired military find positions in the defense industry. Their level of expertise is effective in the Cabinet to assure no further assassinations of our own in Guatemala or in any other place as individuals or as abandoned troops.)

SHOULD THE CONGRESS DETERMINE THAT THE BUSH DEFENDANTS CREATED THE JUDGES, BLOCKED SERVICE OF PROCESS TO EACH MEMBER OF THE CONGRESS, TABLED IN THE SUPREME COURT OF THE UNITED STATES, **THE APPLICATION TO ENJOIN THE ELECTORS UNTIL THE SCOPE OF THE FICTITIOUS JUDGES AND THOSE WHO CREATED THEM WAS DETERMINED,** AND ORDERED THE MURDER OF THE KEY WITNESS IN

GUATEMALA, THEN THE CONGRESS **MUST ESTABLISH A DATE FOR A NEW ELECTION ON THE GROUNDS OF FRAUD AND A SEATED COUP D'ETAT AGAINST THE UNITED STATES OF AMERICA THAT DISFRANCHISED THE UNITED STATES PUBLIC ON DECEMBER 11, 2000.**

THE SERVICE OF PROCESS TO ENJOIN THE ELECTORS WAS PROPERLY BEFORE THE CONGRESS WITH THE LITERAL INVASION OF OUR JUDICIAL BRANCH UNTIL THE CONGRESS COULD REDEFINE THE JUDICIARY AND HEAR THE WITNESSES AS TO THE EXTRA-JUDICIAL ACTS OF THE JUSTICES OF THE UNITED STATES SUPREME COURT.

THE BLOCKADE OF THAT SERVICE OF PROCESS AND THE BLOCKADE TO OUR NATIONAL SECURITY AGENCY (**THIS COMMUNICATION IS EXHIBITED TO PROVE THE BLOCKADE NOT JUST TO THE CONGRESS BUT TO THE NSA. SEE THE "JAZZSWING" CONTRIBUTION OF EVIDENCE OF MILITARY CONTROL) ARE SEPARATE GROUNDS FOR IMPEACHMENT OF THOSE WHO SO ACTED. (COMMANDED THEM TO BLOCK COMMUNICATION TO THE NATIONAL SECURITY AGENCY.**

Respectfully submitted,

Colonel John Karl Reiman

This application for certiorari is "cert-worthy" because no Court in our nation has permitted the creation of judges by powerful defendants nor alteration of records to disfranchise the United States public in the election of their president. The Eastern District of Sacramento did so. The evidence within the Court is to be handed to the Congress with instruction to impeach those who altered records in the Court and who received the orders of fictitious judges and a co-defendant of George W. Bush, Ex-President George Bush, and to assist the return of the body of a murdered United States military pilot, and member of the class seeking certification, of Bush, Clinton (coerced), Noriega international drug running. Petitioner has standing by having had entered the race in Iowa with a celebrity. Those documents were routed through all 192 nations and through the United Nations Human Rights Committee because of the application of high technology in the hands of the military against the petitioner, his wife, and those who assisted them so as to murder them and to simultaneously destroy court evidence of a coup d'etat against our nation from reaching the public.

The campaign manager has disappeared and women in Florida who assisted in communications with celebrities and members of the Congress cannot be contacted. No "open court"is available with the Judicial Branch closed to the petitioners who

cannot predict when and where the next "judge" will appear.

The petitioner's efforts to enjoin the national election until such time as the scope of the power of the judges could be defined so as to prepare for open court confessions of treason, were prevented from reaching the Justices of this Court and the members of the Congress.

It would be fundamentally unfair and contrary to our great traditions and enabling documents to conclude without examination of the evidence that Mr. Robert Redford or any other celebrity, upon a showing of the evidence, and brokering of stolen military family member claims for $300 million to purchase television time would not run for the office with the petitioner and defeat a candidate who had murdered a witness to Bush, Clinton, Noriega international drug running and who created judges to cover-up the fact and prematurely had the Florida votes certified before the F.B.I. could act or was permitted to act. We need to pull together and to recruit as many celebrities and loyal military members as possible to offset what has transpired, a coup d'etat with media control, and set upon the course of conducting a new election on the seventh day of any upcoming month.

The horror of interference, by satellite of communication with

the Congress, with the media, and with our own National Security Agency compels an historical intervention of the people. The Senate can and must prosecute the fictions, with the assistance of the petitioners and JAG officers. The fictions stand impeached as a matter of law in a nation that permits no class to arise apart from merit and for all to know who it is they petition when they petition the "government". We therefore "run" for the presidency together knowing full well that the Oval Office can once again be defended by a moral military and with the same standards of fifty years ago that many have not forgotten and will never abandon. It is clear that the international scourge of drug running and weapon-technology transference may have grown so as to threaten the very economies of nations were it disturbed. A reading of the Iowa Caucus documents sets in the mind of the reader the promise that can be fulfilled to one another that we can and must remove the layers of communication and targeting control above our small planet that would exclude the development of new markets, products and new ways to shine the light of a determined people who will cooperate to assure their own mutual respect for both private spiritual and secular highest authorities.

We have long endured the assassination of leaders, of those

with evidence of the heroin, cocaine, weapon-technology transferences and the institution of wars for profit. We therefore demand that the inherent right to prosecute those who have so conducted themselves in the public trust, in the only "Open Court," the United States Senate, be recognized as a matter of law in a nation whose separation of powers is not sealed to prevent timely response to treason, by this Court. All evidence must be conveyed to the members of the Congress so as to reestablish the rights of the people to remove the layers of deadly and deliberately placed obfuscation and confusion of the communications among the Congress and the people of all nations to replace them with their own resolve that freedom shall prevail with open discussions in truth as perceived and shared by the masses and God willing.

To promote an understanding of the scope of this case, please momentarily reflect on a gestalt. Place One golf ball, representing our small planet, with a light upon it, six others: one with heroin and cocaine paste; one with aluminum foil to represent the high technology satellite and laser encasement of the planet that supports the activities of all represented here except Truth; one with "money"or a precious metal say platinum; one with the blood of women and children who were abused by politicians; one of the blood of all who were assassinated from President John Fitzgerald

Kennedy forward, including military members who died for the heroin and cocaine to continue, and up to the murder of our key witness in Guatemala of Bush, Clinton, Noriega drug running; the final "ball-planet" covered with the religious writings and the laws of nations that justify the acts of ignoring the other events represented on the other ball-planets.

Now kindly sweep the six into the trash can and pick up the one with the light shining on it and know that we can and must, if we are to proceed into the centuries with truth and faith, not only in God, but in one another, invest in our own children and in new scientific models that hold even politicians and power brokers accountable, if not to Truth, then to the people who seek it together. We can do it and we can begin by directing all evidence this day to each member of the Congress, to the Civil Rights Court in Strasbourg, and to the International Court of Justice. Please do not look to the "platinum," rather to Truth and to the compelling reasons for treating one another as brothers and sisters and for seeing our own military as sustained by the grace of a giving and loving God who calls all armies to His side in the growing awareness that we and he can be one.

Do not be dazzled by the theories of cloning and space control with star wars set on fire to threaten our own Pentagon, White House

and Embassies anywhere; rather know that we can reach to the stars together and in time lead in space, or wherever we might be called to engage the forces that betray liberty. Today we simply begin to reestablish that confidence in one another by the early steps we here take together. Testimony to the Senate in 1996 confirmed the New World Order cult, and the acts of recent times confirm that the language of Third or Fourth Reich are not inapposite nor irrational. Reserve your conclusions to the return of those women who fell abused by the politicians and the court records that sustain their return and redress. Focus on the impeachment of the fictitious judges, those who created them and the return of the military member who gave his life by alerting the reader to the peril that will not stop unless you act together to assist the United States Senate.

May the Senate kindly reflect that as doctors have acted "across borders," so, too does the Senate stand responsible to the community of law abiding nations and not to the parochial agendas that may have steered them to power. We can assure the course of nations and of the people who depend upon compassionate leadership as one who stood among you, Senator Barry Goldwater, protested the mining of the Nicarauguan waters, and who embraced the same compassionate capitalism with one of our finest general officers: President Dwight David Eisenhower. Those liberal senators who

are aware of the needs to re-vitalize the economy and to defend American labor as those who stand with "Capital" and who steer the course of a free people can only do so if the "rules of engagement" in our courts are clearly set to exclude those who create judges and who alter documents to betray the confidence of both sides of the United States Senate. The charm of American politics is that we have always been able to forge a consensus on matters of national security. Therefore act together, and return as your own brother, Dois Gene Tatum from Guatemala. All Americans who are able bodied and made fairly aware of his murder, will support your decision and your commitment that no American will be sacrificed to support the gain of those of little faith in our institutions of government and in our serious commitment to the Declaration of Human Rights and the International Covenant on Civil and Political Rights.

If you doubt the "coup" demand television coverage to locate the missing witnesses.

(Please note that sometime after the co-defendant Garcia, of the Bush defendants, in the federal court received the summons

and complaint naming the entire court as defendants because of the theft of the military claims from the court, LKK, Judge Karlton, was removed from the case and Garcia, as a co-defendant, was made "judge". This document proves that on November 23, the case was appropriately still Judge Karlton's with no apparent Bush interference.)

1. This case is not at issue. It will not be at issue until federal discovery under Rule 26.

2. Federal Rule 26 in federal action 99-CV-2249 LKK GGH is necessarily to be litigated pursuant to plaintiff's rights under the 14th Amendment to equal protection and due process under the united States Constitution because at issue in the federal action is the identification of a fictitious Judge Ronald W. Jock in Sacramento Superior Court by unidentified parties. The persons who likely created judge Jock are not in the personal jurisdiction nor subject matter jurisdiction of Sacramento Superior Court. (Please also note the exhibited GHH Findings and the use of "apparently" in his speculations on Jock, Peach, Bush being a Sacramento Superior Court Judge. He makes sport of the lurid abuse of women and children that witnesses trace to George Bush.)

BACKGROUND

Plaintiffs have filed in the Eastern District Sacramento, 99-0173 LKK, a 42 U.S.C. 1983 cause of action. identified i the action are violations of 18 U.S.C. 241, 242 which involve members of this (Court) . John Rossi would not file the action that included scrutiny of his own falsified evidence and that of Chief Justice Ronald W. George to the Supreme Court of the United States. The "Original" stamp is that of the Supreme Court of California. The courts would not HAVE THEIR OWN CRIMES REVIEWED and direct the matter to the Judicial Council, the Judicial Conference. These are impeachable acts. There has thus been no redress from the creation of judges. The Senate must act and the Supreme Court must present all evidence to the Senate. The ICCPR and the DHR have been violated by denying open political access and identification of the created judges, who is creating them and before they are created with a publicized remedy.

TO THE IOWA CAUCUS

TO THE UNITED NATIONS HUMAN RIGHTS COMMITTEE

(Respectfully submitted to all two hundred U.N. nations for consideration of intervention in the interest of international law and to curb drug running, weapons placement, instituting wars, abuse of women and children in other nations by "Black Operations" global network. The Caucus is requested to get this to the named candidates so that the issues can be debated before the people of the United States. Our mail communications, e-mail efforts and other means of getting the message to the people have been blocked. We are under constant military jet electronic "strafing". Efforts to reach ambassadors and members of the Congress have also been obstructed. If we do not survive, an Army Major will get through to Mr. Redford and to Mr. Eastwood. Communications with the Major have been obstructed. He is also being "strafed".)

The future of your children and the validity of the legal, economic and political processes of each nation on earth are compelled to a common course. They are so set upon this course by the Declaration of Human Rights and the International Covenant on Civil and Political Rights.

Preamble; "Whereas recognition of the inherent dignity and of the equal and inalienable rights of all members of the human family is the foundation of freedom, justice and peace in the world...(the signatory nations set upon that course to assure among its members

all of its Articles and commitments to one another so as to inspire the confidence of nations of disparate inclination to walk with them)...

Article 1: "All human beings are born free and equal in dignity and rights. They are endowed with reason and conscience and should act towards one another in a spirit of brotherhood."

(Please note that since the Supreme Court returned this document for adjustment, Presdeint george bush was served and had two months to provide protection ofr the Reimans, to identify the fictious judges.Instead, the administrative law judges have been set upon the task of removing federal medicare privileges when Colonel Reiman has not been permitted to practice for five years despite "excellent" anesthesiologist findings and taking of the medical license without personal jurisdiction, without notice, without hearing while living in Nevada.

No court could be applied to with any to be corrupted by the creation of yet more judges. Social Security administrative law judge was begged to subpoena those from Los Alamos with the details of the electronic weapons. Others have confirmed lasering of their bodies and were warned if they spoke up they would be killed. We cannot have alpha lasers directed at our own Pentagon and White House or embassies anywhere in the world when the courts are closed in this nation and individual "lasers" of smaller but deadly magnitude

with micro-waves are turned on political adversaries.)

Article 6: "Everyone has the right to recognition everywhere as a person before the law."

Article 23: "The family is the natural and fundamental group unit of society and is entitled to protection by society and the State."

Article 24: " Every child shall ave, without any discrimination as to race, color, sex, language, religion, national or social origin, property or birth, the right to such measures of protection as are required by his status as a minor, on the part of his family, society, and the State."

Article 26 (2): "Education shall be directed to the full development of the human personality and to the strengthening of respect for human rights and fundamental freedoms. It shall promote understanding, tolerance and friendship among all nations, racial or religious groups, and shall further the activities of the United Nations for the maintenance of peace."

Mailer-Daemon@jazzswing.ncsc.mil appears on the e-mail to many nations to secure the evidence on the location of the bodies of the missing and murdered witnesses and parties to the action in defense of our free elections. This military unit has presented the very key to the evidence to return

Dois Gene Tatum, the O'Briens, Chandra Levy (who may or may not have been exposed to the "parties" of the New World Order cult whereat the O'Briens claim extremely lurid abuse by the Bush defendants.), and many victims of occult operations. It is particularly significant that the senate has the power to Finance the return of these people and to have Echelon divulge all of its conversations and all satellite gathered evidence to be availed to each victim family to assist in development of leads by private and by international counsel.

"Jazzswing" has also provided the means by which those international organizations that have funded occult activities and Echelon can pay for the stolen military claims and the stolen "election". But for the block of open communication among nations the evidence that is needed would be in the hands of our Congress. Many witnesses have identified "hit squads" among the "envelope" corporations that funded and supplied components of "echelon" and failed to provide adequate warnings as to design defects, and the rules of engagement that determine when a given political adversary or family member would be "fired" upon. We therefore

do not name them here.

We cannot take lightly the urging of many to investigate the injuries to para-rhinal, hippocampal, diencephalon regions of the human brain. The effects upon the immune system, the heart, lungs, skin, and other organs are macabre and may not proceed in the armamentaria of civilized nations and most certainly not in this nation.

We therefore "salute" and deeply thank "jazzswing" for their courage and commitment to a free nation and a world with better options. These we will, God willing, take with us should Robert Redford, or any other committed person, become the next President of the United States of America. never again will the election communications with our own National Security Agency be directed to an "unknown zone". The Supreme Court will kindly accept this communication not type set for the reason of alteration that could be implied. This evidence is too "hot".

Supreme Court of Florida Justices

This is a declaration under penalty of perjury. I just went to the F.B.I. office in Modesto, California and left a copy of the declaration of altered records in the Supreme Court of the United States relevant to last night's decision of the United States Supreme Court. An original Action has been stolen that demands the Congress identify the alterations and creation of fictitious judges with interference of

communications between presidential candidates, courts, and the media. The stolen action was successfully sent to the Democratic office, Mr. Watson, for delivery to you. Please request a copy. Efforts to reach the Vice President were blocked. The net effect of the original action, and a mandatory F.B.I. investigation into altered court records in the United States Supreme Court, is an injunction of the electors from voting for President until the fictitious judges and altered documents are accounted for. The safe haven of December 12 does not contemplate criminal acts in the Supreme Court of the United States, nor are the Separation of Powers hermetically sealed in the State of Florida, nor in the United States government, so as to preclude criminal investigations by the Congress. A deliberate "sacking" of the people of Florida behind the "safe haven" by those persons who knew of the altered Supreme Court documents cannot be permitted to stand without the scrutiny of the Congress.

It is imperative that the standards be established, the votes counted, and the evidence availed to the public of the motivation for the creation of the fictitious judges and the alteration of the United States Supreme Court documents. The standards must be established and the evidence provided the United States public, notwithstanding any "concession" by the Vice President who could not possibly have the results of an F.B.I. investigation into the alteration of records in the Supreme Court of the United States.

It is a proposition too clear for rebuttal that the creation of judges, interference with communications with the Leon County Circuit Court, as to providing the court with relevant election court crimes, suppression of evidence, and intimidation of Florida citizens from reaching the media, Senator Lieberman, and other public officials is exterior to the contemplation of the framers of the Constitution. The remedy is for the standards to be established, the votes counted, and the evidence of alteration of records in the Supreme court of the United States brought to the Congress to impeach the persons who altered the records, who created fictitious judges, and who stole the original action demanding enjoinment of the vote of the electors. The "safe haven" is illusory and unconstitutional in the context of deliberate criminal acts.

The Court is required under the Full Faith and Allegiance to the Constitution duties to take judicial notice of the stolen original action directed to the Court through Mr. Watson, and to count the votes pursuant to a standard that comports with the absence of a "safe haven". But for the altered records and the theft of the original action, the United States Supreme Court could not abdicate the same Full Faith and Allegiance duty of the electors to the Constitution and require the Florida Legislature to act contrary to the over riding Full Faith and Allegiance duty that they each bear to the Constitution.

It is insufficient as a matter of law, that some of the Justices are

aware of the creation of the fictitious judges, the alteration of United States Supreme Court records, and the other justices and the public are unaware. Under these facts the Congress of the United states has an irrefutable duty to impeach the fictitious judges and those who created them. Accordingly, a citizens arrest was effected upon George W. Bush for permitting a co-defendant to serve as a judge so as to dispose of claims of military families who reported waste, fraud, and abuse as to high political involvement in crimes.

The Congress looks to the efficacy of the "arrest," the determination of who altered the United States Supreme Court records, and to the evidence of the actual vote count pursuant to the prescribed Constitutional standards of this Court. The safe keeping of the ballots, the standing issues as to the citizens of other nations with evidence for the Congress on international drug running, weapon placement, and motivation for creation of judges, murder of our own loyal military who reported such matters, can be weighed only by the People of the United States, our Congress.

Our efforts to reach counsel for the Vice President, professor Lawrence Tribe, have been blocked. We need the cooperation of this Court, under the totality of the circumstances and grave implications to our nation, that the Court share this communication immediately with Mr. Bois, minority Speaker Lois Frankle, and Professor tribe.

/s/ Ronald W. Jock
JUDGE OF THE SUPERIOR/MUNICIPAL COURT

Questions Presented for Review

Does the United States military, with or without abused citizens of our nation and other nations, have the power to prosecute fictitious judges on the floor of the United States Senate, (with Senate approval and for lack of an identifiable untainted forum), who commissioned many of the officers, when the judges are of undefined scope of power and influence and knowledge of their next planned appearance in any United States court is unavailable to the officers? The judges were created by United States politicians engaged in international acts against the sovereign United States. These politicians removed, by proxy through the fictions, evidence of treason against the United States of America, and military claims of military families for reporting waste, fraud and abuse, inclusive of treason for which they drew reprisals. They also closed access to political process in the United States to obstruct the reporting of treason by the military officers. Does this power to prosecute extend to host nation forums where the actions arose? To international forums where standing is gained?

1) Must this Court present evidence to petitioner and to the Congress for its own impeachment for altering records, suppressing election documents to enjoin the election until the scope of the power that

creates judges can be defined by the Congress and the other candidates, until the American public alerted to the creation of judges and alerted to the blockade of communications with the Leon County Circuit Court, and the Florida Supreme Court, so as to favor Bush v. Gore over Reiman, Clinton, United States of America v. Bush which was hidden from some of the Justices?

Internal witnesses can be produced to the Congress. This matter is relevant to fictitious Judge Ronald W. Jock and the refusal of the Ninth Circuit to enjoin the California Primary for interference with communications among the candidates as to the creation of Judges and the international drug running of Bush, Clinton, and Noriega as reported by the now murdered witness in Guatemala. Those who altered documents and who suppressed them here can only be distinguished by the Congress in impeachment of Judge Ronald W. Jock to be separate from the power that forced co-defendant Edward J. Garcia to appear as "judge" for the Bush defendants and to remove the declaration of the murdered witness to Bush, Clinton, Noriega international drug running from the 10-10-97 file with the military claims, with the telegram of murder of one associate for investigating the attempt upon William Jefferson Clinton's life by Republicans in the summer of 1992 in San Francisco.. The declaration claims the international drug running

of Bush, Clinton, Noriega and the same person subject of the interrogatories Colonel Reiman sent up thechain of command and to the Members of the Congress. They must read the deposition questions of the Bushes and the Iowa documents in the light of the murder of the witness, United States military helicopter pilot Dois Gene Tatum.

2) Must this Court mandate production of stolen federal court records subject of this appeal and evidence related thereto of treason by the Ninth Circuit Court of Appeals to the Court and to the Congress for impeachment of those who stole the records and who made co-defendants to appear as "judge" when the thefts are extra-judicial acts and appointment of a served- with- summons- and -complaint co-defendant as judge is extra-judicial?

3) Fictitious judges Ronald W. Jock and the co-defendant of the Bush defendants, served with a summons and complaint before being placed on the case for stealing $2 billion in military family -claims for reprisals for reporting waste, fraud and abuse, consolidate the cases 00-15903 and 00-16522 as a matter of law and due process to determine the acts of the fictions in each case to be or not to be exclusive acts without the function of the other fiction or those who created either. Agree?

4) This Court's acceptance of the orders of a fictitious Judge Ronald

W. Jock that denied a criminal investigation into international drug running of Bush, Clinton, Noriega as expressed in removed state court filings cannot be distinguished from the suppression of the documents to enjoin the election until the creation of Judges by the Bushes could be examined by the Congress and the undue influence upon the Courts defined by the Congress which has a duty to impeach the fictitious judges, those who created them and those who altered federal records to protect the fictions and those who created them. Does this Court agree?

5) Does the petitioner have First Amendment rights to know who he petitions when he petitions the government and to have all the judges defined including those who altered the documents in this Court that now are cover-up evidence as to treason, and murder of the key witness of Bush, Clinton, Noriega international drug running?

6) Petitioner has standing because he entered the race for president with a celebrity and made presidential issues those of theft of military claims from a federal court, abuse of our own citizens and abuse of citizens of other nations, murder of an associate during earlier political efforts in a fiery death that linked to international drug running, the sub-culture of lurid abuse of women and children by politicians, their disappearance and/or murder, an attempt upon

the life of William Jefferson Clinton in 1992 in San Francisco reportedly with the involvement of Republicans and George Bush. Are these crimes to be vindicated?

7) A telegram that expressed the physical harassment, taking of the life of the associate, and the attempt upon Clinton was removed from the Court. Excerpts were not delivered to the Congress as requested of the F.B.I. The 10-10-97 file contains the military claims, the declarations of petitioner's excellence as a military officer and as a physician. (Remains Board Certified in Anesthesiology, Family Practice, is a flight surgeon, graduate of the Air War College, and has not been sued in entire career of practicing medicine. License revoked with altered records, while relocated in Nevada against rules, without notice, jurisdiction, nor hearing on the tolled probation for having had left the state. No judge could be approached because of the increasing creation of judges by the defendants, increased theft of court documents, interference with fund raising, licensing, direct communication with doctors, dishonoring of subpoenas, and murder of witnesses and members of the class seeking certification. Falsified evidence was presented to this Court and the same issues were made campaign issues for president to seek public awareness and defense of witnesses before murdered.) Are these impeachable offenses?

8) This Court reviews records to be restored, offers of proof to be honored as to the creation of the judges, falsification of orders, and the body of the key witnesses, Dois Gene Tatum and the abused women and children, with evidence has to be returned to the Congress with evidence from this Court as to who altered the records and suppressed records on December 11, 2000 to prevent exposure of the Bushes and the favoring of Bush v. Gore over the filed documents to enjoin Electors so the scope of the fictions could be defined with evidence relevant to the public presented in the election. Other questions of equal protection, full faith and credit under the state and national privileges and immunities clauses as to the fundamental rights to run for the presidency, fundamental because it includes the right to vote for one's self or others in defense of our nation and international law and order, due process substantive and procedural, and the fundamental right to run for public office that inheres in the Liberty Clause, are incorporated that were directed to Senator Daschle and interrupted by military controlled satellites. They are presented as evidence here as to the very serious nature of interference with communications with the National Security Agency and with a Senator of the very need to impeach this Court. Those who interfered have to be determined, by the Congress who redefines the judiciary and impeaches the

judiciary as an entire body and not just as to those under the influence of the Bush defendants, to be in or outside of the power that created the judges, to be impeached.

These acts of treason disfranchised our nation on December 11, 2000 by blocking mail to the Congress and through Members such as Gary Condit, see Appendix I, notice of arrests and enjoinment of the Electors as a matter of law until the scope of the judiciary under the undue influence of the Bush defendants could be determined by the Congress.

9) Can Petitioners prosecute, with JAG officers, as a matter of law in defense of our nation under the bizarre circumstances of creation of judges and blurring of the identity of all courts in our nation, Echelon and the Bush defendants who created judges in the United States Senate as a matter of law because no court in the United States is shown not to be within the scope of the Bush "power"? Highest law enforcement agents and prosecutors have been blocked from prosecuting the Bush defendants.

10) Do the Courts that were arrested and required to submit to the authority of the Congress have to so submit, as a matter of law, under the virtually eliminated Judicial Branch because of creation of judges of undefined scope, power, time of appearance, and have to provide the Congress with evidence of the coup against the United

States as a matter of law and to avoid charges of treason once the Judicial Branch is restored?

Requests that those arrested submit to the authority of the Congress for impeachment were ignored by the same arrogance that created the judges and caused certain justices or clerks in combination in this Court to hide the documents to enjoin the Electors until mid January while the notice to the Congress of the arrests and the requirement that those arrested submit to the Congress were blocked. See NSA in Appendix Q.

11) Because no "finality" can attach to prior decisions with the scope of the fictitious judges undefined who may have signed the decisions and orders as did Judge Jock, must prior counsel be ordered back on the case for lack of finality and fraud upon themselves, the courts, and our nation? Counsel for the class was to be Melvin Belli.

12) Must the evidence on Jock, the orders received by this Court with the falsified evidence from the California Supreme Court, be given to each MEMBER OF THE CONGRESS , to Colonel Reiman, to Robert Redford who may or may not have received messages from the missing Reiman campaign manager, or the high-technology- tortured- Florida women who were to approach him, the campaign manager and others for assistance?

This power to deliver evidence of treason to the Congress arises from the Liberty Clause fundamental right of the Congress, of all of our people, our nation, all the candidates, and all nations with evidence of the existence of the New World Order/ Fourth Reich, and Colonel Reiman, Robert Redford and all who would join them with the evidence on Jock, the stolen file, and the murdered Tatum, abused women and children, to run for the office of President of the United States with evidence of treason and crimes against humanity defend her and her people in the community of law abiding nations and in conformance with the total body of international law.

13) A final question is whether this Court and the Congress must present evidence of a) who created Judge Ronald W. Jock and b) who ordered the appointment of a co-defendant of George W. Bush a "judge" c) who murdered Tatum who declares that Noriega, Bush and Clinton were involved in international drug running to the International Court of Justice to determine the scope of Hussein, Noriega, Milosevic connections with "Jock," "Irwin Peach," and other black operations figures; to the Civil Rights Court in Strasbourg to vindicate the rights of Colonel Reiman and the class to defend the citizens of the host nation as required by law, the

status of forces agreements with the U.K. that state that our Constitutional rights shall be preserved inclusive of those cited above, and specifically the lives of our own F-111 pilots falsely accused of pilot error, the victims of the international drug running in the European theater, the abused women and children whose duty it was for Reiman and all United States of America military to defend; the raped men from France, Bosnia, Haiti, and Romania who were "sheep dipped" into black operations, forcibly trained as assassins at the peril of their mother's lives, as defined in the case pleadings and on report?

Certainly JAG officers tasked by the Congress, whose Senate commissions many, to obtain the depositions of witnesses, members of the class, and to return the dead bodies of our own will facilitate the morale, the esprit de corps, and the mission accomplishment to the enduring defense of our nation and the subjugation of the New World Order cult/ Fourth Reich to a nation of the people, by the people and for the people. The New World Order exists pursuant to testimony to the Senate in 1996. Political non-justiciable questions do not apply to the New World Order/ Fourth Reich as concerns the Supreme Court of the United States that has a duty to uphold and to defend the Constitution and the United States of America from the New World Order/ Fourth Reich even if Justices

of the Court have been seen at New World Order/ Fourth Reich functions. Judges and justices have restrained themselves from entering the political arena; however, the fact pattern of these cases that are consolidated show the opposite to be untrue: the politicians have not kept out of the courts nor out of the court houses.
